(*b*)‡ Vessels and boats, except open boats as defined in subdivision (*a*), when fishing with drift-nets, shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon, and to be visible at a distance of not less than 3 miles.

With the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea§ sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*c*) Vessels and boats, except open boats as defined in subdivision (*a*), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of subdivision (*h*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or fishing vessel under way respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea§ sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile on the approach of or to other vessels.

(*d*) Vessels, when engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry in the same position as the white light mentioned in Article 2 (*a*) a tricoloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow, and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon.

2. If sailing vessels, shall carry a white light in a lantern, so constructed as to show a clear uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (*d*) 1 and 2 shall be visible at a distance of at least 2 miles.

(*e*) Oyster dredgers and other vessels fishing with dredgenets shall carry and show the same lights as trawlers.

(*f*) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.

(*g*) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11.

*This article does not apply to Chinese or Siamese vessels.

† The expression "Mediterranean Sea" contained in sub-sections (*b*) and (*c*) of this Article includes the Black Sea and the other adjacent inland seas in communication with it.

‡ Dutch vessels and boats when engaged in the "kol" or hand-line, fishing will carry the lights prescribed for vessels fishing with drift-nets.

§ Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

§ Also, as regards Russian vessels, in the seas (excluding the Baltic) bordering the coasts of Russia.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*h*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the day-signal required by subdivision (*k*); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [See subdivision (*d*), and the last paragraph of Article 15.]

(*i*) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of drag-net, and vessels line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute make a blast; if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(*k*) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out, they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this Article to carry or show the lights herein-before specified shall not be obliged to carry the lights prescribed by Article 4 (*a*), and the last paragraph of Article 11.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11. A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red lights prescribed by Article 4 (*a*).

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorized by their respective Governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound-Signals for fog, etc.

Article 15. All signals prescribed by this Article for vessels under way shall be given:

1. By "steam vessels" on the whistle or siren.

2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article, shall mean a blast of from 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow, or heavy rain-storms, whether by day or night, the signals described in this Article shall be used as follows, viz.:—

(*a*) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

(*b*) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about 1 second between them.

(*c*) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when

*In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

with the wind abaft the beam three blasts in succession.

(*d*) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

(*e*) A vessel, when towing, a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules shall, instead of the signals prescribed in subdivisions (*a*) and (*c*) of this Article, at intervals of not more than two minutes, sound three blasts in succession, viz.:—

one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound signal at intervals of not more than 1 minute.*

Speed of Ships to be moderate in fog, etc.

Article 16. Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

Steering and Sailing Rules.

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

(*a*) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(*b*) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(*c*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(*e*) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by way of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

NOTE.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

*Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain-storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fair-way or mid-channel which lies on the starboard side of such vessel.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fair-way used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Sound-Signals for Vessels in Sight of one Another.

Article 28. The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean "I am directing my course to starboard."

Two short blasts to mean "I am directing my course to port."

Three short blasts to mean "My engines are going full speed astern."

No vessel under any circumstances to neglect proper Precautions.

Article 29. Nothing in these rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30. Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

Distress Signals.

Article 31. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress indicated by NC;
3. The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, etc.);
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus.

RESOLUTION ON THE REPORTS FROM COMMISSIONERS OF DIVISIONS ON THE WORKING OF THE MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING 1928-29.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 28TH JANUARY 1930.

RESOLUTION No. 374M.

Minister-in charge : The Hon'ble Kumar Shib Shekhareswar Ray.

READ—

Reports from Commissioners of Divisions on the working of the municipalities in Bengal (except Calcutta) during 1928-29.

Number of municipalities.—The number of municipalities remained 116 and two changes only occurred in their boundaries, those of Baranagore and Kushtia being enlarged. Settlement work in the 24-Parganas showed incidentally that several municipalities in this district have lost their boundaries at one point or another, where through defect of drafting or lapse of years the original line can no longer be traced In course of time the department will put this right by notifying the boundary line on up-to-date methods, with the help of the settlement map, and in the meanwhile none of these small townships seems to be much disturbed by finding itself bordering on No-man's-land.

2. **Elections.**—Municipal general elections occurred as usual in about one-third of the municipalities, 42 to be exact, and on the whole show a growing interest in the exercise of municipal franchise. The towns people of Comilla where 1,900 voters polled out of 2,635 on the register, of Bally which polled over 80 per cent. of its voting strength, and of the ward in Kotechandpur which sent every voter to the polling station, have little to learn in municipal electioneering activities. Quite the most difficult problem about these borough elections, and one in which little progress has been made since the rejection of Bengal Municipal Bill, lies in the facility with which reference to the Civil Courts can forestall the constitution of the newly elected Board. Two years have elapsed since the municipal election in Ranaghat and the Commissioners of the new Board are still awaiting the termination of Civil Court proceedings before they can succeed the old. The elections were similarly frustrated in five other municipalities including the important town of Dacca.

3. **Population and rate-payers.**—Municipal affairs cannot be viewed in their proper perspective without recalling that the total population of municipal areas outside Calcutta comprises only a little over two millions, no attempt being made to adjust the census figure year by year, and that the number of rate-payers in the year under review had risen only to 330,000 or 16·4 per cent. of the urban population. In ten cases the number of rate-payers was in fact less than a tenth of the population of the town, but these are of an exceptional character, eight being mill municipalities with a floating labour population and the other two the hill municipalities of Darjeeling and Kurseong.

4. **Municipal meetings.**—It has been customary to include in this Resolution detailed statistics of the number of meetings of municipal boards, their failures for want of quorum, and their adjournments. It is sufficient however for public interest, and as an index to their activities, to observe that municipal boards met on 2,450 occasions, found themselves short of a quorum at 123 of these meetings, and adjourned 185 of the same number. A dozen municipal boards stagnated with less than one meeting a month. On the other hand, the Board of Hooghly-Chinsurah continues to show the rest of the province the way to the municipal council chamber where they assembled on no less than 61 occasions not always however in sufficient strength to do business.

5. **Rates and taxes.**—The burden of municipal rates is far from excessive. Only in the municipality of Darjeeling does the incidence of taxation exceed Rs. 10 per head of population closely approached by Kurseong with an incidence of Rs 9-9 per head. In the plains these figures are approached by Howrah Municipality with an incidence of Rs. 8-15 per head notwithstanding its large population below

and just above the rate-paying level, and the two next most expensive towns to live in, from the view point of municipal taxation are Chittagong and Burdwan with an incidence of Rs. 6 and Rs. 5-3 per head (taken to the nearest anna). In seventeen municipalities the incidence is below Re. 1 per head. There was, however, an upward tendency in the total receipts from municipal rates and taxes, which were returned at Rs 67·7 lakhs as against Rs. 65·3 in the previous year, swelled, as some Divisional Commissioners report, by disproportionate assessment of Government and Railway premises. Detailed changes in modes of assessment and the imposition of new rates are hardly of sufficient public interest to record; but there was a steady and welcome tendency to substitute the more equitable and productive rate on holdings for the rate on persons. General or partial revision of assessment took place in 61 municipalities, but the figures given for the increase resulting are largely fallacious, as the municipal assessment appeal committees are almost invariably disposed to nullify the virtue of a just and strict revision of valuations, when obtained, by liberal reductions on appeal. There seem grounds to believe that if municipal assessment is to result in valuations furnishing an income in correspondence with the nominal rate, and which therefore are fair both to rich and poor alike, some quasi-judicial machinery for revaluation will have to be devised, immune, as municipal assessment committees are too often not immune, from a tone of compliancy to objections and from anxiety about retention of office on the Board.

6. **Collections.**—Though the percentage of realisations to demand fell by as much as ·6 per cent. (95·05—94·45) a sum of nearly three lakhs more was realised in collection of rates (Rs. 66,42,000 in all) than in the previous year. In individual towns the percentage of realisations sank below 80 in Bansbaria and Bankura. On the other hand, the municipal authorities of Nalchiti and Garulia showed, as they did last year, what can be done in a well-assessed town, by collecting the whole of their demand without remission, and Titagarh and Champdani only fell short of this accomplishment by percentages of ·2 and ·3 respectively. The infant municipality of Gauripur entered on its existence with the creditable percentage of 99·2 in realisation, and Rangpur and Raniganj (99·1 and 87·68 respectively) showed a vast improvement on figures for the previous year which are best forgotten.

The total remission of rates rose by the disquieting figure of Rs. 75,000 to Rs. 3·37 lakhs. Rajpur and Barasat Municipalities wrote off more than a quarter of their income from rates in this manner, while the remissions in Bankura and Bally extended to one-fifth of the demand! The figures for Bally, however, were affected by certain individual large premises.

No less unfavourable than the increase in remissions is the increase in outstanding arrears by over one lakh of rupees to Rs. 16,85,000, approximately 25 per cent. of the demand realised. These figures are however unduly weighted by arrears of over six and a half lakhs of rupees in Howrah and over two lakhs in Dacca. The latter are due largely to difficulties arising from civil litigation which, it is hoped, have now been surmounted by a favourable decision in the Privy Council. The somewhat serious position suggested by the figures for Howrah has not been explained and will receive the further attention of Government. In nine other municipalities the unrealised balances exceeded Rs. 25,000, far too high a figure for the financial capacity of these rural townships.

7. **Income and expenditure.**—The total receipts, including opening balances, amounted to Rs. 129·6 lakhs against Rs. 112·1 lakhs in the preceding year and the total expenditure to Rs. 114·5 lakhs as against Rs. 96·3. So small at the best is the scale of municipal activities outside Calcutta that the receipts by the Titagarh Municipality of a grant of eight lakhs of rupees and an advance of thirteen lakhs towards its sewerage scheme and expenditure of a little over ten lakhs on this object was sufficient to deflect the total figures materially from normal.

8. **Closing balance.**—The total balances to the credit of the municipalities at the end of the year had decreased from Rs. 15·73 lakhs to Rs. 15·06 lakhs. It is notoriously difficult to fix the point at which legitimate expenditure of the

year's income on the welfare of the town borders on unsound finance, but it is quite clear that in several cases outstanding liabilities reduced the true balance to a precariously small figure or even to an actual deficit. This was noticeably the case for instance in the townships of Hooghly-Chinsurah, Madaripur and Baruipur (since suspended) with liabilities of Rs. 52,800, Rs. 2,700 and Rs. 4,100 respectively against balances of Rs. 1,317, Rs. 84 and Rs. 205. A similar position in Mymensingh was among the factors which necessitated a special enquiry into its administration after the close of the year. The difficulties of a municipality involved in land acquisition were illustrated in the case of Dacca where increase of an award by the appellate court resulted in a peremptory demand of Rs. 36,682 which could only be met by an overdraft on the Imperial Bank.

9. **Education.**—The total expenditure on education, including the Government grant of Rs. 1·3 lakhs, rose from Rs. 4·8 lakhs in the preceding year to Rs. 4·57 lakhs, expenditure on primary education within this total showing a corresponding rise. The municipalities which principally contributed to the increase, were Berhampore, Chittagong and Burdwan, Berhampore spending Rs. 15,620 as against Rs. 3,084 in the previous year, and Chittagong Rs. 25,269 as against Rs. 22,000. Rangpur, Madaripur and Barisal reported decreased expenditure, but the figures for the previous year included special construction. An education cess is at present levied by the Berhampore and Rangpur Municipalities and produced an income of Rs. 4,657. Progress with the Biss Scheme for primary education is reported in Dacca which opened three primary schools in addition to the three in existence, Burdwan with a primary school in each of its five wards and in Budge-Budge and Chandpur.

Municipalities have only touched the fringe of the problem of providing education for the young children within their areas. Outside Calcutta there are in urban areas about 270,000 children between the ages of 6 and 11, while primary schools and the primary classes of secondary schools can hold at most just over 100,000 pupils.

The problem of "wastage" in these schools which results in such rapid diminution in the number of pupils as we ascend from the lowest class is one which has received little attention from the authorities. And yet its existence renders very illusory the advance towards literacy which is claimed.

Chittagong alone, by making primary education compulsory throughout the municipality, has realized its responsibilities. A fair measure of success has attended its efforts, and there are now 2,500 pupils being taught in 38 primary schools, but there also the prevalent "wastage" is all too apparent.

This municipality would gladly go on to the free compulsory primary education of girls did its powers under the Act extend to this; and, as far as its resources permit, is opening a number of girls' primary schools to pave the way for this measure.

A rough estimate has been made of the money that will be required by urban authorities before they are able to give primary education, even of the cheapest, to all their children, and the figures are about Rs. 13 lakhs recurring and double that amount non-recurring.

10. **Water-supply.**—The total expenditure on urban water supply fell from Rs. 14·3 lakhs to Rs. 12·05 lakhs, a decrease the more regrettable as this comparatively small figure includes the maintenance of existing works as well as new construction. One of the causes tending to slow down progress with new works is the difficulty so often found by townspeople in realising the local contributions in the expectation of which they have felt justified in approaching Government for a grant. When Government sanction the grant they naturally require the local resources promised to be collected before the grant is paid. These dribble in more slowly than was expected and the time is past for the necessary formalities of budget procedure to be completed before January with the result that payment of the Government grant must await the next financial year and twelve months are lost. With no prospect of an immediate grant local efforts relax and too often the same process repeats itself again. The most important new work under construction was the third section of the Dacca scheme, and work on new projects was also in progress in Burdwan, Faridpur and Asansol, while that at Chandpur was brought on to the list for construction in

1929-30. Jalpaiguri, Noakhali, Narayanganj, English Bazar, Bhatpara and Rajshahi were also interested in new schemes some of which received sanction at various stages.

Recourse to tube wells in urban areas is an interesting step noticed by two or three Divisional Commissioners. Several recent projects have in fact been based on tube wells of large bore, but apart from these municipal boards such as Rajshahi, Pabna and Bogra have found it useful, especially during shortage of water-supply to sink small tube wells without any subsidiary piping to give local relief in the poorer quarters. As a rule this policy has served its purpose, but it has proved a mistake to aim at cheapness by sinking shallow tube wells in the vicinity of the river, a temptation which certain small towns in the 24-Parganas have cause to regret.

There is a constant risk in the rural towns, whether through want of experience or of funds, of insufficient attention to the proper mechanical upkeep of existing plant. The water works in Comilla broke down soon after they were opened and a three lakhs scheme has ended for the present in improvised pumping from a tank, while the risk to the towns people of Mymensingh from deterioration of the pumping plant eventually led to the intervention of Government.

Metering of house connections as a means to prevent waste has always been a subject of contention, and unfortunately one board at least has assumed an authority which it does not possess to continue to grant house connections without meters in spite of the statutory rule to the contrary now in force.

11. **Conservancy and drainage.**—Expenditure on conservancy rose from Rs. 22·7 lakhs to Rs. 33·7 lakhs, the normal figures being completely thrown out of gear by the expenditure in Titagarh referred to in paragraph 7.

No feature of municipal finances gives a more unfavourable impression than the inveterate tendency to debit to the general funds the cost of conservancy, a charge which should be met from the latrine rate designed for the purpose. The extent of this drain on the general fund amounted to an excess of over five lakhs in expenditure over receipts from the latrine fund, or nearly 25 per cent. of the expenditure—these figures excluding the abnormal items at Titagarh. Ratepayers would rather see the funds for general urban well-being curtailed than a rate levied for conservancy that meets its full cost; and the municipal boards too often follow the line of least resistance, with this demoralising result. Several municipalities reported labour trouble with the sweepers during the year, overcome in most instances by some small concession. The housing of municipal sweepers in many cases presents legitimate grounds for complaint and rural townships will have seriously to face the problem of recruiting this imported labour of a monopoly type. Expenditure on drainage has in the past been noticed in a separate paragraph, but the dividing line between this and conservancy is not always clear. It is sufficient to say that the total reported increased from Rs. 3·2 lakhs to Rs. 3·7 lakhs spent mostly on various small measures for the improvement of surface drainage.

12. **Lighting.**—Expenditure under this head was practically stationary at six lakhs. Electric light is gradually finding a place in the larger rural townships, but Bally near Calcutta is the only municipality to report its adoption as a new measure in this year. The refusal of the Burdwan Municipality to raise the special rate to meet the cost of electric lighting which the Act places in their hands is another instance of the tendency to poach on the general fund for special services mentioned in the paragraph on conservancy. The primitive system of lighting in the smaller rural municipalities remains, it is to be feared, the constable's handicap of which the police authorities have so often complained.

13. **Public Health.**—It is a welcome change to turn from these criticisms of the financial administration of local bodies to their manifold activities in the field of public health. The total expenditure on the pay of Health Officers and Sanitary Inspectors for the first time exceeded two lakhs, and if there is any department of municipal work in which a sense of forwardness and enterprise is apparent, it is in that concerned with public health. It is perhaps not of much interest to dwell on details of tank filling and jungle clearing. This work went on, but as one Commissioner shrewdly observes notwithstanding the self-laudatory reports of townships year by year on this point the insanitary

tanks and the oppressive undergrowth are still there. There is more sense of reality in the reports of action taken to counter epidemic disease. The chlorinating of the water supply, as in the town of Burdwan, is now perhaps a matter of routine and carried sometimes to excess. All Divisions report attention to vaccination, and examination by school health officers of over twelve hundred schoolboys in Dacca showed that only 54 were unprotected. In Bogra it is specially noticed that private practitioners cooperated with the municipal health authorities in insisting on vaccination, and the municipality of Bhatpara prosecuted over 100 cases of breach of the Vaccination Act. More interesting, because a newer movement and because of its incalculable possibilities, is the interest shown in inoculation against cholera. Here again it is difficult to avoid mentioning the town of Dacca where during an epidemic over twelve thousand persons were inoculated and only one death was reported amongst them. Numerous other towns especially in Eastern Bengal report their success with inoculation against cholera, and there is good reason to hope that in the short space of three years this form of protection has firmly established itself in favour with the health authorities of rural townships in Bengal. The usual efforts to cope with malaria and kala-azar were continued with the assistance of Government in grants and allotments of quinine, and the Birnagar Palli Mandal again distinguished itself as a model for local organisations framed especially to combat malaria. Yet another aspect of public health work in which municipalities show increasing interest year by year is the checking of adulteration of foodstuffs exposed for sale. No less than fifteen tons of adulterated foodstuffs were destroyed in Dacca town, and fines imposed in Narayanganj amounted to Rs. 725. Unfortunately, however, the leniency of the Courts towards a practice which saps the physique of the town-dweller goes to impair the deterrent effect of these prosecutions. More than half the 610 samples of foodstuff sent for examination from Dacca to the Public Health Laboratory were found to be adulterated. Before leaving the subject of public health one may mention the opening of classes for dais in towns such as Chittagong and Krishnagar and somewhat sporadic efforts to eliminate water-hyacinth.

14. **Public Works.**—Expenditure on public works decreased from Rs. 12·4 lakhs to Rs. 10·9 lakhs, a sure sign that municipalities are falling behindhand in meeting the elementary material needs of town life, especially in point of communications. The net decrease however in the plains municipalities does not much exceed Rs. 1 lakh.

Complaints are universal of the rapid deterioration of urban roads through the increase of motor bus traffic and the insufficiency of municipal resources to meet this new type of wear and tear on the roads. Too much must not be expected from the road fund constituted with the 2-anna increase in the tax on petrol, the proceeds of which will be devoted primarily to arterial and inter-provincial roads and will not go very far even in this limited sphere. From Dacca, Chittagong and other municipalities there has come a demand however for the taxation of motor vehicles as a source of income towards expenditure on the roads which they damage, and Government hope before long to respond to this demand by bringing forward in a revised form the Bill for the Taxation of Motor Vehicles which was shelved after reference to a Select Committee three years ago. It is usual to record the total mileage of roads in urban areas, viz., 1,383 miles metalled and 1,641 miles unmetalled.

15. **Loans.**—The total indebtedness of municipalities outside Calcutta amounted only to Rs. 26·4 lakhs, a sum which indicates the limited scale of their capital works in recent years, and beyond a new loan of Rs. 62,734 to the Suri Municipality for water-works and drainage, and the success of the Jiaganj-Azimganj Municipality in obtaining a small private loan free of interest, there is practically no feature to record during the year.

16. **Audit and Accounts.**—The audit of municipal accounts is a matter to which Government have recently been paying increased attention. A corollary of the financial freedom conferred on these local bodies in pursuance of the policy of the last decade, is a strict and effective audit going hand in hand with insistence on publicity of the audited report and on attention on the part of the municipal authority to the defects reported. Government are by no means satisfied that the present rules and system afford an adequate guarantee for

these essentials and are examining the whole matter further. In the meanwhile it is proposed to give publicity to the annual report in which the Examiner of Local Accounts reviews the results of audit in the previous year, a valuable summary of current financial tendencies which has up to the present remained unknown.

It is not the purpose of this Resolution to condemn in general terms the conduct of municipal accounts, and Government readily appreciate the handicap of an honorary executive served by a poorly qualified and sometimes under-paid municipal office staff. At the same time the delay in dealing with audit notes of which the Local Examiner and Divisional Commissioners complain year after year, is by no means an unavoidable consequence of this position. Still less can it be taken as adequate excuse for the confusion in accounts and the far too frequent defalcations which audit has brought to light, or for the general attitude of leniency on the part of Commissioners and executives to the municipal employé in a position of trust whose financial delinquencies are established. There were as many as five cases of prosecution for embezzlement on the part of municipal employes in one stage or another during the year; and in at least two other cases of embezzlement in the Jamalpur and Jhalakati Municipalities the Chairmen and Commissioners accepted a settlement without criminal proceedings. With the numerous and too often serious defects in financial procedure mentioned in individual audit reports it is beyond the scope of this Resolution to deal.

17. **General remarks.**—It is perhaps not a very profitable task to attempt to sum up year by year the plus and minus account of progress in municipal life and activities in Bengal for there is not much variation to be found in the Commissioners' Reports. The evils of faction and the reluctance of municipal authorities to face unpopularity by imposing adequate taxation, or even by realizing through distraint when necessary the full dues of the year on the too often inadequate scale of rates imposed, are prominently mentioned in this year's reports as they have been in the past. Too often the more immediate and material requisites of urban well-being —good roads and good drains—suffer from the apathy engendered by the restricted income of the town. On the other hand, there are undoubted signs of vitality in the increasing interest in municipal elections and in the response by municipal boards to the encouragement offered by Government for the development of public health activities.

The names of the following Chairmen, Vice-Chairmen and Municipal Commissioners have been brought to the notice of Government on account of good work done by them, and the Government of Bengal (Ministry of Local Self-Government) desire to express their appreciation of the public spirit shown by these gentlemen :—

Final Forecast of the Sugarcane Crop of Bengal, 1929-30.

Dacca, the 28th January 1930.

(NOTE.—On an average of the five years ending 1927-28, the area under sugarcane in Bengal has represented some 7·0 per cent. of the total area under sugarcane in British India.)

Character of the season.—In the second forecast, the weather was reviewed as having been favourable although some damage to the crop was caused by drought in the beginning and by flood in parts of Eastern Bengal during the period of growth. Since then harvesting operation was carried on under favourable conditions. On the whole a fairly satisfactory crop is expected for the Province.

Acreage.—The total area planted is estimated at 197,600 acres this year as against 195,800 acres last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the Province works out at 82 per cent. of the normal this year as against 81 per cent last year.

Taking 37 maunds as the normal yield of cane *gur* per acre, the gross outturn for the Province is estimated at 220,200 tons this year as against 215,600 tons last year.

Other sources of gur.—The total quantity of *gur* likely to be obtained from date-palm juice and others is estimated at 101,700 tons this year as against 102,200 tons last year.

The quantity of *gur* for the Province from all sources is thus estimated at 321,900 tons this year as against 317,800 tons last year.

RESOLUTION ON THE REPORTS OF THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1928-29.

RESOLUTION—No. 539L.S.-G.

Minister-in-charge: The Hon'ble Kumar Shib Shekhareswar Ray.

READ—

The reports of the Commissioners of Divisions on the working of District Boards in Bengal during the year 1928-29.

District Boards.—There are twenty-six District Boards in Bengal. The number of persons in the position of Member, now much sought after, was 683, of whom two-thirds owed their position to election and one-third to nomination. The District Board of Darjeeling was the only Board constituted under the old system with the District Officer nominated to the Chair, the chairmen of all other bodies being private members elected to office by the Board. The number of meetings convened during the year was 428 of which only five failed through lack of attendance, and the interest of the Jessore District Board in its affairs is to be measured by the high percentage of 98·00 in members present.

2. **Local Boards.**—Beyond their function as electoral colleges for District Boards it cannot be said that Local Boards, with their delegated resources and powers, attract great interest; and it is primarily to meet the legal position arising from the establishment of Union Boards in Jalpaiguri and Malda that their number is now being increased. During the year 1928-1929 there were 82 Boards with a membership of 1,343 (an increase of 4 over the previous year through revision in Birbhum) and in all but seven Local Boards the Chair was filled by election from among the private members. In four of these seven cases an official held office by election. The average number of meetings convened was between 9 and 10 with a slightly higher percentage of abortive meetings than in the case of District Boards.

3. **Union Boards.**—It is a matter for regret that the difficulty experienced in certain districts in completing statistics for these numerous small bodies prevents a review of their work at present; and the Ministry of Local Self-Government hope shortly to issue a separate Resolution on the working of the Village Self-Government Act.

4. **Income, Expenditure and Balances.**—The total receipts and expenditure of District Boards in 1928-29 amount to Rs. 1·56 crores and Rs. 1·52 crores, an increase of 10·5 lakhs and 2·7 lakhs, respectively, over the totals for the previous year. These figures for the total monetary transactions of all District Boards in the province should be viewed in their proper perspective against the Calcutta Corporation budget of over two crores. No less than three lakhs of the increase in receipts can be traced to Government grants. The inelasticity of the revenue from Cess which constitutes about half the total income is one of the great handicaps of District Boards, and the proceeds from this source rose only by 1·5 lakhs. The actual net balance to the credit of District Boards at the end of the year was Rs. 17·6 lakhs as against 15·9 lakhs. This increase represents no change in the financial status of District Boards but is due to failure in one district and another for various reasons to work off special grants or capital allotments.

5. **Education.**—The expenditure rose by Rs. 1·4 lakhs to Rs. 36·6 lakhs of which Government contributed Rs. 21·3 lakhs while other receipts, including school fees and contributions, amounted to Rs. 77,000. District Boards from their own funds spent Rs. 14·6 lakhs against Rs. 12·6 lakhs in the preceding year.

The number of upper and lower primary schools maintained and aided by District Boards rose from 46,400 to 47,900 one-fourth of which was for girls. The number of pupils attending these schools was boys 1,268,500 and girls 346,600 against 1,248,500 and 307,800 respectively in the previous year.

Union boards in several districts continued to maintain free primary schools and some new schools were established

during the year. The 24-Parganas District Board pursued their policy of establishing one free primary school in each thana.

There have been cases where District Boards have failed to use grants fully or for the specific object for which the money was given, and a more adequate check is necessary to prevent such diversion of funds.

The District Boards of Bankura, Midnapore, Hooghly and Pabna aided respectively 84, 35, 34 and 70 night schools for the education of the depressed and labouring classes. The Bankura District Board paid a grant of Rs. 550 to the Music School at Vishnupur.

One Technical and Industrial School was maintained by each of the District Boards of Burdwan, Khulna, Mymensingh, Rajshahi and Noakhali. In addition, the District Boards aided 58 such schools. This class of institution is gradually gaining in popularity and may in time contribute to the solution of the problem of middle class unemployment. The Technical and Industrial Schools at Bogra and Pabna are maintained by Government and the Boards award scholarships tenable at these institutions. Nadia subsidised 4 technical and industrial institutions.

The peripatetic weaving schools in the Bankura district are doing good work towards the instruction of the aboriginal tribes. Many of these people are maintaining their families by adopting the profession of weaving. Two such schools are maintained by Government in each of the districts of Bakarganj and Jalpaiguri; and there is a growing demand for more of these in the districts. Those at Bakarganj have been working for the last two years during which period altogether 260 persons were trained in improved method of weaving and 178 flyshuttle looms introduced. Other weaving schools maintained or aided by District Boards are also doing useful work. Government provincialised two weaving schools in Dinajpur. The District Board of Noakhali appointed an inspector trained at Bolpur for the encouragement of home industry. The Howrah District Board introduced hand spinning in some middle and primary schools for boys and girls.

Physical culture of students continued to receive the attention of the Bankura and Midnapore District Boards.

6. **Public Health and Medical Relief.**—In three years the expenditure of District Boards on public health has risen, with the help of grants from Government, from twenty-two lakhs to twenty-nine lakhs of rupees. There has sprung into existence an entirely new type of public health organization in the shape of the rural health unit in charge of a trained sanitary inspector for each police station, the cost of which is met by Government while it remains under the control of the District Board. The scheme which was halfway towards completion in 1928-1929 involved expenditure of Rs. 3,89,000 by Government during that year, an entirely new expenditure which had found no place at all in budgets before 1926-1927. The Sanitary Inspector is usually not a medical practitioner but trained only in public health as distinct from medical practice, and is responsible for precautionary measures against epidemic diseases and emergency action such as disinfection and vaccination when epidemic diseases occur. Commissioners mention their work favourably, especially in the 24-Parganas and Howrah; but the movement is of too recent a growth to obtain full prominence in the reports.

Mention was made in the last Resolution on Public Health of the rapid progress made with mass inoculation as a preventive against cholera, and this subject, like that of vaccination, is more appropriately dealt with in that Resolution. It is sufficient to say that District Boards without exception now welcome the new measure in cases of cholera epidemic, and that for instance 50,000 persons were inoculated in Howrah district and 85,000 in Bakarganj.

In vaccination against small-pox the most interesting area was the Malda district, where the District Board almost tripled their vaccination staff and seriously set to work to vaccinate every person in the district. The example has since been brought to the notice of other District Boards.

Government assisted District Boards with the usual grants towards coping with malaria and kala-azar. In some districts there has been a slackening down of kala-azar work due apparently to a genuine reduction of the disease. No such variations are reported on the scale of work against malaria, which continued in full vigour with the help of grants-in-aid and grants of quinine from Government.

If prominence has been given to the public health work of District Boards it must not be supposed that there was any loss of interest in dispensary work. The number of dispensaries maintained or aided by District Boards continues slowly to rise (530 and 376, respectively, as against 520 and 357 in the previous year) and the figures reported do not include Union Board dispensaries, all of recent foundation. The carefully administered grant towards the cost of new thana and village dispensaries encourages the opening of dispensaries in new areas, for which alone it can be drawn on, and is tending rapidly to promote the establishment of one dispensary at least in every police-station. When every police-station in Bengal has its dispensary and its rural health unit working under the control of the District Board (and that standard is already within measurable distance) there will exist the framework of a medical and public health organization for rural areas with which probably no other province in India can vie.

7. **Veterinary Work.**—Expenditure under this head decreased slightly through fortuitous reasons, rather than through curtailment of the existing scale of activities, and totalled only Rs. 2·12 lakhs. With so small a sum spent on the care of animals in rural Bengal it is hardly necessary to dwell on the complaints of inadequacy of the staff and results which several districts acknowledge. Government have recently sanctioned the free supply of serum up to Rs. 70,000 per annum, which some District Boards seem actually to have obtained in advance of the formal concession; and it is to be hoped that the saving thereby secured will be applied by District Boards to promote their veterinary work, and not merely be taken in reduction of expenditure on this head below the present meagre standard.

8. **Civil Works.**—A decrease in expenditure on Civil Works from Rs. 62·9 lakhs to Rs. 60·8 lakhs is attributable to the abnormal position in the Burdwan District Board. The resources of this District Board are influenced by a fluctuating income from the mines, and an ambitious programme of construction taken up in bumper years had suddenly to be curtailed when this income fell, with the result that three lakhs less was spent by this Board on civil works in 1928-1929 than in the previous year. At the same time it is to be realized that in recent years there has been a general tendency for District Boards to spend proportionately less on the maintenance and development of communications, which historically at least is their primary function, than in the more recently developed sphere of the social services. This tendency is shown in a decrease of expenditure on communications to Rs. 34·4 lakhs from Rs. 35·9 lakhs in the previous year notwithstanding famine relief work in Western Bengal. It comes just at a moment when the increase of motor traffic is putting an entirely new strain on rural roads; and the Road Fund intended primarily for arterial and inter-provincial roads will only touch the fringe of the problem. Government hope before long to respond to the demand for taxation of local vehicles by introducing in a new form the Bill shelved when the Road Committee was formed; but the adjustment of this taxation and distribution of the proceeds in a province where motor traffic is associated predominantly with one large town raise questions which are by no means easily solved.

The mileage of metalled and unmetalled roads was 2,560 and 16,100 as against 2,545 and 15,792 respectively in the previous year, and in the present position stationary figures are to be welcomed rather than the reverse as a sign that District Boards are at least using their resources to maintain the roads they have, and not dissipating them on the extension of a road system which already exceeds their capacity.

9. **Water Supply**—If expenditure on roads tends to be of secondary interest to the modern District Board, no branch is more popular than that on water supply, Rs. 8·3 lakhs in 1928-29. The first wave of enthusiasm for tube-wells has subsided in some quarters, the Mymensingh District Board for instance definitely preferring the older types of water supply. Exploitation of the possibilities of the tube-well in Bengal is indeed handicapped by two factors. One is the failure of most District Boards to realize that the provision of tube-wells on a large scale is useless without the employment of a small staff to do the simple but frequent repairs which the best tube-well pumps need from time to time. The other is the

preference for a cheap and shallow type of tube-wells with a view to putting in new wells at the maximum number of villages rather than insistence on sinking the deeper and more permanent types at a limited number of places of public resort. The Faridpur District Board, for instance, sank 237 wells ranging from 50 to 150 feet in depth at an average cost of Rs. 140 each! The District Boards of the 24-Parganas and Hooghly kept a small mechanical staff for the repair of their wells, but the former district which had sunk over 1,000 tube wells by the end of the year 1928 1929 is a case very much in point. The Commissioner criticises the expenditure in the North of the district on wells of a shallow type which the villagers could often afford to sink by themselves, while the real centre of the water supply problem, in the South of the district, is neglected.

Construction of the old type of masonry well goes on and calls for little comment, but the place of tanks in a water supply policy raises administrative questions of its own. On the one hand, as the Presidency Commissioner points out, Boards can never hope to construct public tanks in sufficient numbers throughout a district, and money is more usefully applied in assistance to private owners. On the other hand even under carefully guarded conditions, the enforcement of which may however be lost sight of with lapse of time, there is a certain nervousness about authorizing expenditure from public funds on tanks which remain private property, whatever the facilities granted for a public right of access.

Since the end of the year under review Government have formulated on lines of greater precision the policy of providing loans for water supply at a concessional rate of interest, which will be effected by making a recurring grant corresponding to the reduction of interest to 3 per cent. The opportunity has been taken of modifying the conditions of the scheme so far as possible in order to meet the suggestions of the District Boards.

10. **General Remarks.**—A little over a decade has elapsed since District Boards were released from internal official control, in pursuance of the policy laid down by the Government of India in their Resolution of 1918 and so liberally interpreted by the Government of Bengal. The consensus of the opinion formed by Commissioners and local officers is that within their limitations, and especially those of financial character, the District Boards are essentially carrying out the functions of promoting rural well-being which they were designed to fulfil. One most welcome feature is that where the majority of the District Board is not composed of a party in declared opposition to Government (and Bankura was the only District Board of the kind in 1928-29), District Boards and the Chairmen of District Boards have established a friendly entente with the district authorities and work in co-operation with them. Another interesting feature is the capacity for public service of a talented and energetic non-official who assumes office on a District Board. For better or for worse the value of a Board's work seems still to depend more on the Chairman than its majority, and District Officers quote instances, which it would be invidious to detail, of palpable improvement in the affairs of a backward District Board on the assumption of office by a new Executive. There is a tendency, perhaps inevitable, in this Resolution to dwell on the more promising side of District Board work; but after saying so much it would be a mistake to disguise one weak point which causes Government some concern, namely, insufficient internal control of the finances and accounts of District Boards. Audit reports are swelled with instances of irregularity, amounting it is to be feared often to financial abuses, and the laborious work of the auditor, far from receiving the strict attention due from the Board and its Finance Committee, tends to be quietly shelved until the auditor reappears next year to repeat his sterile task. The problem of ensuring closer attention to financial regularity on the part of District Boards, and, as a means to this end, of securing greater publicity and effective finality for audit criticism is one on the solution of which progress in the field of local self-government in the near future must largely depend.

The Government of Bengal have to record with regret the death of Maharaja Sir Manindra Chandra Nandi, K.C.I.E., of Kasimbazar, who did sterling work as Chairman of the Murshidabad District Board, an office which he vacated shortly before his demise.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 7th February 1930.

Final Report on the Cotton Crops of Bengal, 1929-30.

(NOTE.—On an average of the five years ending 1927-28, the area under the Cotton Crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The early crop is chiefly grown in the Chittagong Hill Tracts and the Tripura State and to a small extent in other districts. The late crop is chiefly grown in Bankura and Midnapore.

Character of the season.—As a result of favourable weather at the time of plucking, a higher yield than that of last year was reaped for the early crop for the province as a whole.

The outturn of the late variety is expected to be fair, on the whole.

Area sown.—The total area sown with early cotton is returned at 76,307 acres and that with late at 1,403 acres, against 77,396 acres and the same area, respectively, in the final forecast of last year.

Outturn.—The outturn of the early crop is estimated at 20,797 bale and the late crop at 283 bales, against 17,446 bales and 379 bales, respectively, in the final forecast of last year.

CALCUTTA, THE 17TH FEBRUARY 1930.

RESOLUTION—No. 3460A.

The Governor in Council has heard with deep regret of the death in Calcutta of Mr. A. W. Cook, C.I.E., I.C.S., on the 14th February 1930. During his service of 32 years, Mr. Cook was in charge of some of the most important districts in Bengal. While on furlough in 1917-18, he was granted a Commission in the Indian Labour Corps for service overseas and he rendered military duty from the 7th January 1918 to the 12th February 1919. After acting as a Commissioner on two occasions, he was confirmed in that grade from the 16th November 1926. In December 1928, he was appointed to fill the important post of Member of the Board of Revenue which he held until the day of his death. His work throughout was marked by exceptional ability and devotion to duty and, in his later years, he was one of the most trusted advisers of Government in matters of district administration of which he had a most intimate knowledge. His Excellency in Council desires to record his profound regret at the loss of an officer whose advice he highly valued and to convey his sincere condolences to Mrs. Cook.

No. 3164A.—12th February 1930.—The following is substituted for Appendix IX to the Departmental Examination Rules:—

APPENDIX IX.

Rules for the Training of Assistant Magistrates, Deputy Magistrates and Sub-Deputy Magistrates.

1. As soon as any junior officer to whom these rules apply is posted to his district, the District Officer should prepare a programme showing, with reference to the work in his office, the periods which the junior officer will spend in the several departments. Each junior officer should receive a copy of the programme of his work, and the programmes should be entered in a register.

(Bengal Government, Appointment Department, Notification No. 2931A., dated the 1st May 1917.)

2. Officers of the Bengal Civil Service (Executive) and the Bengal Junior Civil Service will be on probation for a minimum period of two years after appointment. During this time they should be trained so as to get as much experience as possible in Magisterial and Revenue Courts with a view to their acquiring a knowledge of official routine. They should also study the Codes and the Acts to enable them to go up for their departmental examinations. They will be allowed to appear for the Lower Standard at the first half-yearly examination held after their appointment; and in no case will an officer be confirmed until he has passed these examinations completely by the Higher Standard.

(Bengal Government, Appointment Department, Notification No. 2411A., dated the 9th March 1923.)

3. Assistant Magistrates and Deputy Magistrates undergoing a course of training, who are allowed, under rule 2 to appear at any departmental examination, are under this rule required to prepare an intelligent and precise record of six cases tried by first class Magistrates and of three defended Sessions trials.

The cases to be recorded will be selected for the purpose by the District Magistrate or by such Magistrate as may be deputed by him to select the cases: appellate cases will not be included.

The officer preparing the record must prepare it from notes taken by himself in Court as the trial proceeds. He must ordinarily be present in Court throughout the trial of the case which he is reporting, and he should not see the depositions recorded by the Magistrate. But if he is unavoidably absent from a small part of the hearing, the Magistrate may show him the portion of the record which he has missed

The Magistrate will show him the judgment which he may read and from which he may take notes, but he must write in his own language a judgment fulfilling the conditions of section 367 of the Criminal Procedure Code.

It is not necessary that the notes of the statements of witnesses should contain everything which is recorded by the Magistrate, but they must contain an intelligible narrative and all important points must be brought out. When two or more witnesses repeat the same story, the examination-in-chief of all of them need not be fully noted, but the record must show the points of difference.

The Magistrate trying the case, or, in Sessions cases, the Public Prosecutor, should give to the officer preparing the record a certificate of his constant attendance throughout the hearing. If he has been unavoidably absent from part of the hearing, the certificate should show for what part he was absent.

The record should consist of—

(*i*) a summary of the evidence, with notes on it, showing its admissibility and applicability to the offence charged;

(*ii*) notes on the procedure with references to the Codes, *e.g.*, to such matters as the rules as to cross-examinations, re-examination, drawing up of charge and taking the statement of the accused;

(*iii*) a précis of the arguments adduced for the prosecution and the defence, and, in the case of Sessions trials, a précis of the Judge's charge to the jury.

It should be understood that value will be given to notes intelligently based on annotated editions of the Criminal Procedure Code, Penal Code, and Evidence Act.

Sub-Deputy Magistrates under training will prepare a record on the above lines, *mutatis mutandis*, of six cases tried by first class Magistrates.

(Bengal Government, Appointment Department, Notification No. 559A., dated the 7th January 1924.)

4. The District Magistrate will forward these records to the Legal Remembrancer, who will, at any time before the date fixed for the departmental examination, send a statement of his opinion thereon to the Central Examination Committee for consideration and submission to Government with the result of each half-yearly examination. The District Magistrate should keep himself informed of the progress which is made in the preparation of these records so as to ensure that they are punctually submitted, and should examine the first record of each officer to see that it has been prepared on the right lines. The records referred to in this rule must be prepared and submitted to the Legal Remembrancer within twelve months of an officer's joining his first appointment unless for any special reason Government grant an extension of this period.

5. If, in the opinion of the Legal Remembrancer, an officer has once prepared the record satisfactorily, he will not be required to do so again, even although he may not be adjudged to have passed in Law.

6. (1) Assistant Magistrates should attend the court of a selected first class Magistrate (preferably the Sadar Subdivisional Magistrate) for a week, and thereafter should be given simple cases to try.

(2) Probationary Deputy and Sub-Deputy Magistrates, during the period of their training in the Magisterial Department should attend the court of a first class Magistrate, selected by the District Magistrate, during the trial of criminal cases.

7. Junior officers may be deputed for miscellaneous enquiries in regard to criminal cases when the inspection of a locality or other matter is important, and they may be examined in Court as to their reports. They may also be deputed to conduct specific enquiries in chaukidari matters and to preside at the payment of chaukidars; before doing this they should make themselves thoroughly acquainted with the rules. For a period not usually exceeding one month, they may be placed in subordinate charge of the Chaukidari Department in order to learn the office procedure. They should also study the miscellaneous work of the Magistrate's office. Members of the Bengal Junior Civil Service should also be given at least one month's training in the work of a circle officer by being deputed for training to different circles, during which period they will be instructed in the work of checking assessment lists, performing annual audits, and in the other duties of a circle officer.

8. All junior officers are required to undergo a training in treasury work, and for that purpose should be placed in charge of the district treasury, under the general supervision of the Deputy Collector ordinarily in charge, for a period of not less than six weeks continuously, and must obtain a certificate from the Collector to the effect that they have duly attended to and satisfactorily discharged the duties of Treasury Officer for the prescribed period.

9. Probationers should not be required to work as clerks, or to write up registers; they should, however, prepare notes or *précis* of cases and draft letters. They should see all the papers which go up to the Deputy Collector, and the Deputy Collector should utilise their services in any way that he can in connection with the cases. The Deputy Collector should, at the same time, see that the probationer makes himself acquainted with the law and rules on the subject, and should from time to time require him to prepare a note explaining the procedure or the reason for any action taken in a particular case. In departments the work of which involves the keeping of accounts or registers, probationers should check and initial entries made in registers, check the accounts and examine the preparation of returns. They should attend inspections by the gazetted officers in charge of departments and by the Collector, and should assist during those inspections.

10. At the end of a probationer's period of training in any department, the Deputy Magistrate or Deputy Collector in charge of the department should record a note in the register referred to in rule 1,

stating how the probationer has attended to his duties and a general opinion of his industry and ability. This should be shown to the District Officer who should personally interview each probationer at least once a month and ascertain by oral examination of each probationer whether he has acquired a reasonable amount of information about the working of the departments in which he has been under training. If such examination shows that any probationer is insufficiently acquainted with the working of any department, he should be sent back for a further period or further periods of training in that department until his knowledge of its working is adequate, and the programme of work referred to in rule 1 should be modified accordingly. An officer in charge of a department must realise that he is held personally responsible for seeing that probationers under training are given every opportunity of becoming fully acquainted with the working of the department and make full use of their opportunities.

11. Probationers should keep a diary and record briefly the work done by them day by day. The diary should be submitted to the Deputy Collector under whom they are working for the time, and should be seen by the Collector.

12. Junior officers should not take up survey and settlement work before they are deputed to the annual training camp. The rules for the regulation of this camp are contained in the Survey and Settlement Manual.

13. The programme prepared under rule 1 should make provision for short periods to be spent in learning the nature of the work which is done in the following departments:—

(1) Tauzi,
(2) Cess,
(3) Record-room,
(4) Land Registration,
(5) English office,
(6) Munshikhana,
(7) Certificates,
(8) Partition,
(9) Nazarat,
(10) Income-tax and
(11) Land Acquisition;

and junior officers should be required to study the manuals concerned while they are engaged in those departments.

All junior officers should be put in charge for a short period of the Copying Department of the Collectorate Record-room.

They should be required to make themselves thoroughly acquainted with the rules for inspecting the accounts of Government estates and, in districts in which there are suitable estates, to inspect accounts according to the rules and to check arrear lists under the supervision of the Khas Mahal Deputy Collector.

In the case of Ward's estates of which the accounts are sent to headquarters for audit, their services may be utilised for short periods in assisting to audit the accounts.

14. **Touring.**—The District Officer should occasionally take junior Assistant Magistrates with him on his tours, but not for such long periods as will interfere with their preparation for the departmental examinations. During these tours the District Officer will find opportunities for instructing them in the several branches of the administration of a district.

Junior officers should not ordinarily be sent out on tour for long periods, but their services may with advantage be utilised for distributing and collecting agricultural loans, for making local enquiries in probate cases, for assisting the Land Acquisition Deputy Collector in making local payments, for enquiries about agricultural calamities, and for inspecting accounts in Government estates.

15. **Agriculture.**—All junior officers should make themselves familiar with the appearance and the names of local crops, as well as of the times of sowing and harvesting. They should also, as far as possible, study the elements of agriculture in the works on agriculture, both general and Indian, which will be found in the district libraries.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Part VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 20th January, 1930:—

L. A. BILL NO. 1 OF 1930.

A Bill to amend the Transfer of Property (Amendment) Act, 1929, for a certain purpose.

WHEREAS it is expedient to amend the Transfer of Property (Amendment) Act, 1929, for the purpose hereinafter appearing; it is hereby enacted as follows:— XX of 1929.

Short title.

1. This Act may be called the Transfer of Property (Amendment) Act, 1930.

Amendment of section 4, Act XX of 1929.

2. In section 4 of the Transfer of Property (Amendment) Act, 1929,— XX of 1929.

(*i*) in *Explanation I*, for the words "if the instrument has been registered under sub-section (*2*) of section 30 of the Indian Registration Act, 1908, from the earliest date on which a memorandum thereof has been filed by any Sub-Registrar under section 66 of that Act" the following words shall be substituted, namely:— XVI of 1908.

"where the property is not all situated in one sub-district, or where the registered instrument has been registered under sub-section (*2*) of section 30 of the Indian Registration Act, 1908, from the earliest date on which any memorandum of such registered instrument has been filed by any Sub-Registrar within whose sub-district any part of the property which is being acquired, or of the property wherein a share or interest is being acquired, is situated" and XVI of 1908.

(*ii*) in proviso (2) to *Explanation I*, after the word "instrument" the words "or memorandum" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The formal amendments contained in this Bill are designed to carry out the intentions of *Explanation 1* contained in section 4 of the Transfer of Property (Amendment) Act, 1929. The difficulties sought to be met by the latter part of the body of the Explanation are not confined to cases where registration is effected under sub-section (*2*) of section 30 of the Indian Registration Act, 1908, but they are also encountered when an instrument relating to scattered properties is registered in the ordinary manner. Further, it is possible, under the present Explanation, that a subsequent transferee may make a genuine search in the offices of all the sub-districts in which the property he seeks to acquire is situated, and find no record of a transfer; but may still find himself saddled with notice of a transfer by reason of a memorandum relating to some other property, included in a previous transfer along with the property he is interested in, having been filed in some distant sub-district.

The Bill is intended to remove these anomalies.

NEW DELHI;

The 20th December 1929.

S. C. GUPTA,

Secretary of the Legislative Assembly.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 23rd January, 1930.—

L. A. BILL No. 2 OF 1930.

A Bill further to amend the Indian Railways Act, 1890.

Whereas it is expedient to amend the law relating to Railways in India; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Railways (Amendment) Act, 19 .

Amendment of section 42, Act IX of 1890.

2. In section 42 of the Indian Railways Act 1890, after sub-section (2) the following *Explanation* shall be inserted, namely:— IX of 1890.

"*Explanation.*—For the purposes of this sub-section reservation of any compartment in a railway train for the exclusive use of any particular community, race or creed shall be deemed to be undue preference."

STATEMENT OF OBJECTS AND REASONS.

This amending Bill is intended to prohibit reservation of compartments in Railway trains for the exclusive use of persons belonging to any particular community, race or creed. In certain prosecutions under section 109 of the Indian Railways Act, 1890 (IX of 1890), the point at issue was whether such reservation amounted to undue preference within the meaning of section 42. The High Courts have variously interpreted section 42 in these cases, while agreeing that such reservation is not *ultra vires*. The present amendment will place the matter beyond doubt and bring the law into line with public opinion.

2. The Bill was originally introduced by Mr. K. C. Neogy in September, 1924, in the Legislative Assembly and passed on 30th January, 1925. But it was negatived in the Council of State on 26th February, 1925.

The following Bill was introduced in the Legislative Assembly on the 23rd January, 1930:—

L. A. BILL No. 3 OF 1930.

A Bill to provide for treating offenders under the Child Marriage Restraint Act, 1928, as first offenders and enlarging the scope of the discretionary powers under section 562 of the Code of Criminal Procedure, 1898.

Whereas it is expedient to amend the Code of Criminal Procedure, 1898, for the purpose of extending the list of offences to be dealt with and enlarging the scope of the discretionary powers under section 562 of the said Act; It is hereby enacted as follows:— V of 1898.

Short title, extent and commencement.

1. (*1*) This Act may be called the Code of Criminal Procedure (Amendment) Act, 193 .

(*2*) It shall extend to the whole of British India including British Baluchistan and Sonthal Parganas.

(*3*) It shall come into force on the 1st day of April, 1930.

Amendment of section 562, Act V of 1898.

2. In sub-section (*1A*) of section 562 of the Code of Criminal Procedure, 1898,— V of 1898.

(*a*) after the words "in which a person is convicted" the words and figures "of offences punishable under sections 3, 4, 5 or 6 of the Child Marriage Restraint Act, 1928, or" shall be inserted; XIX of 1929.

(*b*) after the words "physical or mental condition" the words "or moral or religious belief" shall be inserted; and

(*c*) between the words "trivial" and "nature" the words "or technical" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to enable the Magistrate empowered to try cases under the Child Marriage Restraint Act, 1928, to treat the accused as first offender and release him with admonition, if he finds that the circumstances under which the offence is committed justify the use of the discretionary powers under section 562 of the Criminal Procedure Code.

This Bill will render the Child Marriage Restraint Act more educative than penal. It is obvious that in contracting child marriages in defiance of the provisions of the Child Marriage Restraint Act, some of the offenders will be found actuated by the motive to respect their religious belief or customary usages. They are not offences which involve any danger to the State, public tranquillity or any kind of moral turpitude on his part. They are in my opinion just the kind of offences in which the offenders deserve the lenient treatment.

The Age of Consent Committee have, in paragraphs 282 and 283 of their Report, observed that there may be cases of husbands convicted of the offence of marital misbehaviour when the Court can, in its discretion, treat the accused as first offender. In fact this was the principle that mainly guided them in prescribing the period of imprisonment for both kinds of offences of marital misbehaviour. The authors of the Report are unanimous in maintaining that—

"It will be in the fitness of things, that the Judges should have the discretion in suitable cases to give the accused the benefit of section 562 of the Criminal Procedure Code."

It is needless to add that what has been written in the Report regarding the commission of offences of marital misbehaviour by boys between 14 and 18 is equally true of offences under the Child Marriage Restraint Act by boys above 18 and even 21.

It is true that the Committee have not made any specific recommendation for the amendment of section 562 of the Criminal Procedure Code so as to include therein offences against the law of marriage. But the authors of the Report in paragraph 318 have clearly stated their reasons for the omission to consider detailed suggestions in regard to the law of marriage. The report observes:

"We have had various suggestions made regarding the law of marriage. The question of the law of marriage is not directly before us..... We do not propose to consider detailed suggestions with reference to that law."

Sub-section (*1*) of section 562 enables the Magistrate to treat the offenders under the Child Marriage Restraint Act as first offenders. But it is compulsory on the Magistrate to call upon the accused to execute a bond for a period not exceeding three years.

Besides it appears from the language of the section that it is intended to provide for certain classes of offences which relate to breach of peace or some kind of improper conduct. A bond in terms of sub-section (*1*) of section 562 from an offender under the Child Marriage Restraint Act will in many cases have no meaning and for that very reason the Magistrates may be reasonably disinclined to give the benefit of that sub-section to these offenders. The proper remedy, therefore, is to enlarge the scope of sub-section (*2*) and invest the Magistrate with the discretion of releasing the offender on admonition.

The Bill also aims at widening the range of the grounds which the Magistrate can take into consideration.

Hitherto there was no express provision enabling the Magistrates to treat conscientious objectors as first offenders, whether moral or religious belief is comprised within the meaning of the term "physical or mental condition" or not is a question not altogether free from doubt. The amendments proposed in clause 2 (*b*) and (*c*) will leave no ambiguity.

So also the addition of the word "technical" after the word "trivial" is intended to give greater latitude to the Magistrates in the use of the powers vested under sub-section (*1A*) of section 562.

M. S. ANEY.

YEOTMAL;

The 7th December 1929.

S. C. GUPTA,

Secretary of the Legislative Assembly.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 23rd January, 1930:—

L. A. BILL No. 4 OF 1930.

A Bill to penalise the use of pictures of gods and goddesses, scenes from scriptures or mythology of any religion whatsoever as marks or trade-marks on any article imported to or manufactured in India.

Whereas it is expedient to penalise the use of pictures of gods and goddesses, scenes from scriptures or mythology of any religion whatsoever as marks or trade-marks on any article imported into or manufactured in India; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Religious Pictures Trade Marks (Prevention) Act, 19 .

(*2*) It extends to the whole of British India.

(*3*) It shall come into force on the first day of April, 19 .

Punishment for importing or manufacturing goods with trade-marks of pictures of gods and goddesses, etc.

2. Any person from whom a customs duty is levied in any place in British India for importing any article or the manufacture in India of any articles whatsoever shall be punished with a fine not exceeding five hundred rupees if the articles so imported or manufactured bear on them picture of gods, goddesses, scenes from scriptures or mythology of any religion whatsoever, as marks or trade-marks.

STATEMENT OF OBJECTS AND REASONS.

Many articles imported from foreign countries or manufactured in British India bear on them the stamp or picture of Hindu gods and goddesses, scenes from scriptures or mythology, as marks or trade-marks. It is repugnant to religious sentiments that they should be so used and profaned by coming into contact with everyday humdrum commercial life. Respect for Hindu sentiments demands that the pictures of gods and goddesses, and the scenes from scriptures and mythology should not be used as marks or trade-marks on any article sold in the market. In like manner, it is proposed to provide that pictures from life of Buddha, the Koran, the Bible should not be used as marks or trade-marks on any article sold in the market. The object of this Bill is to penalise all such imports and manufactures so as to prevent the abuse that has grown up within recent years.

Commercialisation of religious sentiments is anti-Indian in tradition, and culture and sentiment.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 7th February 1930.

Third and Final Report on the Winter Rice Crop of Bengal, 1929-30.

(Note.—On an average of the five years ending 1927-28, the area under Winter Rice in Bengal has represented some 17·7 per cent. of the total area under rice in British India.)

Character of the season.—In the second forecast the weather was already reviewed up till October as having been favourable on the whole. Since then harvesting commenced favourably, although wet weather for some time during the months of December and January interfered with the operation in some districts.

Acreage.—According to the estimates returned by the District Officers, the total area under winter rice is 14,703,700 acres as compared with 15,357,400 acres last year.

Outturn.—From the summary of the district returns appended, it will be seen that seven districts report a normal crop of 100 per cent., fourteen districts a crop varying from 80 to 97 per cent., and the rest from 67 to 75 per cent. of the normal.

As compared with the second forecast, a better crop has been harvested in the districts of Murshidabad, Jessore, Rajshahi, Darjeeling, Faridpur, Chittagong and Noakhali, while in Bankura, Midnapore, Jalpaiguri and Malda, the crop has deteriorated from the previous estimates.

According to the above estimates, the provincial outturn works up to 90 per cent. as against 105 per cent. of the normal last year. In my opinion the crop will not be less than 95 per cent. of the normal.

Accepting 95 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 6,453,400 tons this year as against 7,404,500 tons last year.

G. P. Hector,
Dir. of Agri., Bengal (offg.).

RESOLUTION ON THE ANNUAL PROGRESS REPORT ON FOREST ADMINISTRATION IN THE PRESIDENCY OF BENGAL FOR THE YEAR ENDING THE 31ST MARCH 1929.

GOVERNMENT OF BENGAL.

Revenue Department.

Forests.

CALCUTTA, THE 11TH FEBRUARY 1930.

RESOLUTION—No. 1891 For.

Read—

The Annual Progress Report on Forest Administration in the Presidency of Bengal for the year ending the 31st March 1929.

Read also—

The reports of the previous three years and the Government resolutions thereon.

Mr. E. O. Shebbeare was in charge of the Northern Circle during the year except for a period of five months during which he was deputed to the Empire Forestry Conference in Australia and New Zealand; Mr. E. A. C. Modder acted for him during this period. Mr. J. Homfray held charge of the Southern Circle from the 1st to the 17th April 1928 when he went on leave and Mr. S. J. Curtis held charge for five days until the arrival of Mr. E. Benskin from the United Provinces. The latter acted as Conservator of Forests, Southern Circle, till the 3rd December 1928 when Mr. Homfray, on return from leave, relieved Mr. Benskin and held charge till the end of the year.

2. The foreword to the report outlines the main schemes which are receiving the attention of the department. The complaint of the department that, out of Rs. 2,36,718 non-recurring expenditure and Rs. 38,933 recurring expenditure budgetted for, sums of Rs. 30,676 and Rs. 50 only were allotted, is somewhat misleading, because proposals involving expenditure of Rs. 46,000 for a saw mill at Parbatipur and Rs. 9,000 for elephants for the Dacca-Mymensingh Forest Division, were dropped at the instance of the department, while the important scheme for the formation of Ranges in the Sundarbans was found to be susceptible of material reductions in cost, and thus, was not included in the budget. In fact, most of the schemes submitted for inclusion in the budget of 1928-29 have again found their way into the schedules for 1929-30, but their ultimate inclusion in the budget as presented to the Legislative Council must, now as always, depend upon two permanent factors which weigh with business firms as well as Government, the ability to provide the necessary finance, especially in respect of recurring expenditure, and the relative importance of particular schemes. For immediately remunerative projects money can always be found, but for schemes which will not be remunerative until a more distant date, Government, no less than the individual, are compelled to exercise due caution.

The need of Ranges in the Sundarbans is fully recognised by Government and the scheme has now been included in the budget for 1930-31.

Government have agreed to the suggestion that a provision of Rs. 25,000 should be made in the budget to meet unforeseen demands for sleepers, and other produce, necessitating expenditure on the extraction of timber by departmental agency. The proposal that the Forest budget should be separated from the Provincial budget, implies that the development of the forests of Bengal should be given preferential treatment over the manifold

activities of Government in other spheres, *e.g.*, education and public health. It is more than doubtful whether there would be public support to any scheme which subordinated immediately essential interests such as the education and health of the people to the expansion of forest revenue.

3. **Area.**—The area of reserved forest increased by 1,181 square miles to 6,462 square miles. The area of protected forest diminished from 1,854 to 628 square miles or by 1,226 square miles, of which 1,097 square miles in the Sundarbans Division and 90 square miles in the Dacca-Mymensingh Division, are accounted for by their inclusion in the area of reserved forest. There was no change in the area of unclassed forests. The total area under the control of the Forest Department diminished by about 45 square miles by the disforestation of areas more suitable for cultivation than afforestation.

4. **Working-plans.**—The revised working-plan for the Jalpaiguri Division was completed, but the progress of the compilation of the Buxa working-plan was greatly retarded owing to the loss of certain enumeration figures. The revision of working-plans for the Kurseong, Darjeeling and Sundarbans Divisions, was in progress.

The full programme of regeneration could not be carried out, but 2,227 acres which were under working-plans were regenerated during the year against 2,435 in the previous year.

5. **Utilisation.**—The saw mill at Siliguri which was started in April 1926 continued to do good work. The total sales of sawn timber from this mill fell from Rs. 1,33,000 to Rs. 1,25,943 during the year. The mill had to face an extremely dull market throughout the year.

6. **Khedda.**—Departmental khedda operations conducted in the Chittagong Hill Tracts Division resulted in the capture of 32 elephants, of which 2 died, 2 escaped, 1 was shot and 9 released. The net return yielded by the operations amounted to Rs. 1,123, but this figure excludes the value of 5 elephants still unsold and 3 elephants taken over by the department.

7. **Outturn, revenue and expenditure.**—There was an all-round diminution in the outturn of forest produce except in bamboos. Both revenue and profit likewise diminished by more than Rs. 2 lakhs during the year, while expenditure diminished by about Rs. 20,000 only. The total revenue for 1927-28 and 1928-29 is compared below:—

Year.	Northern Circle.	Southern Circle.	Total.
	Rs.	Rs.	Rs.
1927-28	18,90,169	14,59,311	33,49,480
1928-29	18,02,812	13,15,545	31,18,357

The divisional figures of revenue are compared below with the figures for 1927-28.—

	Rs.
Northern Circle—	
Darjeeling	−2,887
Kalimpong	−9,050
Kurseong	−12,984
Buxa	−1,28,145
Jalpaiguri	+65,746
Southern Circle—	
Chittagong Hill Tracts	−29,905
Chittagong	−20,078
Cox's Bazar	−27,841
Sundarbans	−65,572
Dacca-Mymensingh	+200

The amount spent on construction and repairs of roads and bridges was slightly less than in the previous year; no new works of any magnitude were taken up during the year.

The amount spent on construction of new buildings was much less than in the preceding year. The cost of upkeep of the existing buildings was, however, a little more than that in the previous year.

8. The total value of sales of forest produce was about Rs. 3¼ lakhs less than in 1927-28. The value of forest produce given free of royalty was Rs. 51,379 against Rs. 49,193 in 1927-28.

Lizard skins having become fashionable, a considerable trade in them has developed. The demand for skins during recent years resulted in such indiscriminate killing of these animals that Government were compelled to take steps for their protection in view of the useful purpose they serve in keeping down the number of snakes. A close season and a minimum size below which immature lizards are entirely protected were prescribed by Government during the year.

In the forest area two persons were killed by crocodiles, but none by tigers in the year under review. A sum of Rs. 1,860 was paid in rewards for killing eleven tigers and capturing two cubs.

The thanks of the Governor in Council are due to Messrs. Shebbeare and Homfray for their successful administration of the Forest Circles and also to Messrs. Benskin of the United Provinces and Modder who officiated as Conservators of Forests during the year. His Excellency in Council also notices with pleasure the record of good work done by other officers of the department referred to in the report.

ORDER.—Ordered that the above resolution be published in the *Calcutta Gazette*.

Ordered also that a copy of the above resolution be forwarded to the Conservators of Forests, Bengal.

By order of the Governor in Council,

Secretary to the Government of Bengal.

DACCA, *the 15th February 1930.*

J. C. ROY, for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th February 1930.

Monthly Weather and Crop Report of Bengal for January 1930.

I. **Character of the Season.**—During the month under review, the rainfall was in excess of the normal in eleven districts only while in the rest of the Presidency it was much below the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of potatoes and other spring crops continued. Threshing of winter paddy progressed in full swing. Preparatory tillage for autumn crops and transplantation of summer paddy seedlings were facilitated by the recent showers in parts of East and North Bengal.

III. **State of standing crops.**—The condition of standing crops was reported to be satisfactory, on the whole.

IV. **Prospects and probable outturn.**—The prospects of vegetables and other standing spring crops were reported to be favourable. The outturn of winter rice crop is estimated at 95 per cent. and that of sugarcane at 82 per cent. of the normal this year. A satisfactory outturn of spring crops is expected.

V. **Damage to standing crops.**—No damage to standing crops was reported from any part of the Province.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported to be satisfactory on the whole. Stray cases of cattle-disease were, however, reported from eight districts of the Presidency and from the States of Cooch Behar and Tripura.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be sufficient throughout the Presidency excepting only in parts of the Tripura State where scarcity was reported from the third week of the month.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice of the cheapest quality rose in five districts, fell in four and remained stationary in the rest of the Presidency. The prices ranged from 5 seers per rupee in the 24-Parganas to 9½ seers per rupee in the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.

STATEMENT OF OBJECTS AND REASONS.

1. The Union Boards should be developed. More trust should be reposed in them. There is no reason why they should not have the power of appointment and dismissal of the chaukidars and dafadars they pay for.

Safeguard is provided in the shape of the District Magistrate's veto against appointment of undesirable persons.

2. The upkeep and repairs of roads, works of public utility, which are not directly looked after by the District Boards, cannot be entrusted to better hands than the Union Boards whose members have occasion to use them daily. It is sought to provide funds for these works by amendments to appropriate sections.

3. Other amendments merely re-arrange sections or are consequential.

Part VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly.

We, the undersigned Members of the Select Committee to which the Bill to reserve the coastal traffic of India to Indian vessels was referred, have considered the Bill and the papers (Papers Nos. I—IV), and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Clause 1.—An amendment has been made in sub-clause (*2*) consequential on the definition of "coastal traffic" in clause 2.

A proviso containing a suspending clause is necessitated by the provisions of section 736(*a*) of the Merchant Shipping Act, 1894 (57 & 58 Vict., c. 60).

Clause 2.—The definition of "coastal traffic" excludes Aden and Perim and ports in Indian States. It further exempts from the provisions of the Act the carriage of passengers with through tickets and of cargo on a through bill of lading to or from ports outside British India; also of mails and pilots in certain cases. These provisions are similar to those of section 7 of the Australian Navigation Act, 1912—1920. It was also decided to exempt the carriage of oil in bulk by oil-tankers as a class of ships entitled to special consideration.

We have considered it desirable to place Rulers and subjects of Indian States in the same position as Indian British subjects for all purposes.

Definitions (*2*) and (*3*) in the Bill as introduced have been consolidated in the definition of "Indian-controlled ship". We consider it desirable in the case of a corporation, partnership or association to prescribe a percentage of the right to profits as well as to capital and to provide that companies must be both incorporated and registered in British India in order to render control effective. We have also required that the Managing Director and Managing Agent, if any, should be Indians. We further decided to include ships chartered by Government in the category of Indian-controlled ships.

We were impressed with the desirability of precluding evasions of the Act by *benamidars* but decided that the imposition of penalties or disabilities on persons holding ships *benami* for non-Indians or on the non-Indian beneficiaries would involve very great complications. We have, therefore, decided to make no provision on these lines, but desire to record our recommendation that if, when the Act is in operation, devices of this kind are employed with success on a large scale, counteracting measures should be taken.

Sub-clauses (*4*), (*5*) and (*6*) introduce purely formal amendments.

Clause 3.—The retention of the expression "common carrier", which appeared in the Bill as introduced, might have defeated the object of the Bill. This expression is limited to persons who are bound to carry for the public; and shipping companies might have taken the opportunity to protect themselves against the operation of the Act by a declaration that they would not carry in certain circumstances. We have avoided this difficulty by the use of the word "ship".

Clause 4.—We have thought it desirable to obviate the difficulty which might arise if the total Indian-controlled tonnage applying for licences is inadequate to the needs of the coastal traffic by providing that the Governor General in Council shall in each year after consulting the public fix the total tonnage which ought to be licensed and retain a power [given by the proviso to clause 7 (*3*)] in such cases to make up the desired total by licensing ships other than Indian-controlled ships.

Clause 5.—In view of the provision which we have made in clause 9 for penalties, it is essential to require a definite form of application for licences containing a signed declaration as to whether a ship is or is not Indian-controlled, together with relevant particulars.

Clause 6.—In this clause we have combined clauses 4, 5, 6, 7 and 8 of the Bill as introduced. The yearly variations of tonnage provided by clause 7 necessitate the alteration of the period of validity of a licence from three years to one year. We think that it is unnecessary to provide for renewal of licences.

Clause 7.—This clause reproduces substantially the provisions of clause 9 of the Bill as introduced with the following modifications:—

(*i*) We consider it essential that all *bonâ fide* Indian-controlled vessels applying for licences in the first year should obtain them, especially in view of the fact that the number of such ships would not be excessive.

(*ii*) In order to prevent any rush to obtain qualification by exchange of shares, etc., at the last moment before application we have provided that, for the first year, only ships which were Indian-controlled on a fixed date to be inserted in the Bill should participate in the privileges conferred. This date should be as nearly as possible the date on which the Bill finally passes through both Chambers of the Indian Legislature.

(*iii*) As explained with reference to clause 4, provision has been made for the licensing in each year of the total tonnage considered necessary for the needs of the coastal traffic by licensing ships other than Indian-controlled ships if the latter do not apply in adequate numbers.

Clause 8.—We were of opinion that a clause of this nature, based on clause 286 of the Australian Act, is necessary to meet temporarily the emergency of a sudden rush of traffic or failure of shipping between ports.

Clause 9.—We considered it desirable to particularise the offences and classes of offenders generally envisaged by clause 10 of the Bill as introduced. The penalty provided in (*a*) for the master of a ship is designed to provide an indirect means of control over persons not otherwise amenable to the municipal law of British India. Sub-clause (*2*) was added to meet the case of an offending company or firm.

Clause 10.—To the provisions of clauses 11 and 12 of the Bill as introduced we have added a power to cancel licences in respect of which a false statement or declaration has been made in an application and have made provision for forfeiture of security.

Clause 11.—We have inserted a general rule-making power subject to the rules being laid in draft before both Chambers of the Indian Legislature, and to any Resolution passed by either Chamber with regard to the draft within a fixed period being taken into consideration by the Governor General in Council before the rules are finally made.

We have inserted a special reference to rules prescribing the conditions under which licensed ships may be chartered. We desire to place upon record our recommendation that these conditions should prohibit a charter of the "bare boat" or any other form which transfers the control, management or running of a ship from an owner who satisfies the conditions contained in sub-clause (*a*) or (*b*) of clause (*3*) of section 2 to a charterer who does not satisfy the conditions contained in one or the other of those sub-clauses.

Clause 12.—This clause which follows section 4 of the Indian Merchant Shipping Act, 1923, exempts public ships from the operation of the Act.

Clause 13.—It was considered desirable to make it clear that the holder of a licence is in no wise exempted thereby from the requirements of the Indian Merchant Shipping Act, 1923, relating to certificates, etc.

Minutes of dissent.

We have signed the report with the other members of the Select Committee purely as in duty bound.

We entirely dissent from the discriminatory principle underlying the Bill which is such as renders it impossible for us to put forward any alternative proposals.

We refrain from comment upon any clause with the exception of No. 4 which, we are convinced, is thoroughly unpractical. To our mind, in operation it will undoubtedly cause serious difficulties to arise. Apart from the onus placed upon the Governor General in Council or upon any Government Department, the clash of opinions as to the estimate of tonnage essential to the needs of the coastal traffic in any year, is bound to lead to conflicting views causing delays and a general state of muddle, resulting, probably, in dislocation of the traffic and serious loss to those who are dependent upon coastal shipping.

The clause is objectionable to us also because it connotes Government control, rules, regulations and interference. Experience all over the world of late years has eloquently shown that the less Governments interfere with trade and commerce, the better for all concerned.

Concerning the Bill as a whole, as Burma is interested in 75 per cent. both of coastal cargo and passenger trade, the danger threatening the province, if the Bill becomes law, is too great to be contempleted without misgiving.

JAS. F. SIMPSON.

W. STENHOUSE LAMB.

The 20th March, 1929.

I consider that many of the amendments made in the Bill by the Select Committee are improvements, and that the Bill is now a much more workable and practical measure than it was at the time of its introduction. But, in my view, the Bill is open to the gravest objections in principle, and these objections have not been in any way removed, or even diminished, by the amendments made in Select Committee. I object altogether to discrimination between the citizens of the various parts of the British Empire in respect of the coastal traffic of India, and I object to the expropriation involved in that provision in the Bill which seeks to reserve completely the coastal traffic for Indian-controlled vessels at the end of five years from the date when the Bill becomes law. In these two respects the Bill has not been materially altered and I am unable to support it.

2. In the following points of detail the provisions of the Bill, as amended by the Select Committee, seem to me to be open to criticism:—

(1) Sub-clause 2 (3) (*b*) (*i*) provides that 75 per cent. of the shares of stock of a Company must be vested in Indians, if the ships owned by the Company are to be Indian-controlled ships. There would, I apprehend, be great difficulty in practice in establishing the fact that a breach of this condition had occurred.

(2) Clause 4 imposes on the Governor General in Council the duty of determining annually the total tonnage which is essential for the needs of the coastal traffic. I am not satisfied that this could be done with sufficient accuracy to prevent grave inconvenience to trade if the quantity required was underestimated, or the partial frustration of the objects of the Bill if it was over-estimated.

CALCUTTA, THE 20TH FEBRUARY 1930.

RESOLUTION—No. 988 Agri.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

Read—

The Annual Report of the Department of Agriculture, Bengal, for the year 1928-29.

Staff.—A very important step was taken during the year under review by the appointment of an Agricultural Engineer. The scope of his activities includes the construction of dams and leads for flow irrigation in Western Bengal, supervision and sinking of tube-wells in suitable areas, construction and maintenance of farm machinery suitable for Bengal and the training of apprentices. All these are essential to the advance of agriculture in this Presidency, and it is hoped that progressive development will now be possible on the lines indicated.

It is encouraging to notice that the Agricultural Engineer has made a good beginning in the matter of irrigation, tube well construction and manufacture of implements to suit local needs, while a scheme for apprenticeship training is under preparation. A gratifying feature of his activities is that he is getting some local reputable firms interested in the manufacture of machines to his design, with the result that favourable prices have been secured.

2. The main lines of activities of the department may be broadly classified under the following three heads:—

(1) Research, (2) Demonstration and Propaganda and (3) Agricultural Education.

The progress made in each of these directions is reviewed below:—

Research.—In the words of the Royal Commission "the basis of all agricultural progress is experiment." As a matter of fact demonstration and propaganda can only follow successful experiment. The constitution of the Imperial Council of Agricultural Research in pursuance of the recommendation of the Royal Commission can be said to mark an epoch in the history of development of scientific agriculture in this country. As suggested by the Commission, while refraining from exercising any administrative control over the provincial research institutions already in existence, the Council will be a body to which the Provincial Departments of Agriculture may look for guidance in all matters connected with research. In accordance with the recommendation of the Royal Commission a Provincial Research Committee is also in process of formation. The Commission realised that occasional visits to provinces by the Chairman and members of the Central Research Council and even provincial representation thereon will not provide sufficient contact between the Council and the Provincial Departments. They accordingly suggested the establishment of Provincial Research Committees which will work in close co-operation with the Central Council. It is hoped that the Bengal Provincial Committee will not fail to achieve the object for which it is now being constituted.

Turning now to the activities of the three research sections of the department, Government are pleased to notice that while the Fibre and Botanical Experts are mainly engaged in the solution of the problems connected with the two staple crops of the province, viz., jute and paddy, the Chemical Section has devoted its attention to sugar and tobacco problems. A noticeable feature is that the active co-operation of Dacca University has been secured and that some of the students of the University are now engaged in agricultural research work.

Demonstration and Propaganda.—As observed by the Royal Commission, agricultural research can be of no avail to cultivators until its results are

brought to their doors in a form in which they become a part of their agricultural practice and the best and quickest method of influencing the practice of the cultivators is to demonstrate an improvement in crop or method on a small plot cultivated under departmental control or direction. It is highly gratifying to note that the Bengal Agricultural Department is already fully alive to the utility of this method of ocular demonstration and that the *Borga* system of cultivation under close departmental supervision, as in Kishoreganj in Mymensingh, has proved eminently successful and is being extended. While sympathising with the department that financial conditions do not permit the entertainment of an adequate staff for demonstration work, Government are glad to observe that the department is making the most of the opportunities that are available.

It is also very encouraging to note that the number of private farms is gradually on the increase and that many of the *bhadralog* class are now taking to farming under their own personal management.

Agricultural Education.—It is extremely unfortunate that financial stringency still stands in the way of giving effect to the important and long pending scheme for the establishment of an Agricultural Institute at Dacca. Meanwhile a scheme for the opening of a Dairy Section at the Dacca Farm has been administratively approved and awaits provision of funds.

It is pleasing to note that the Punjab scheme of agricultural training classes for the teachers of High and Middle English schools has proved successful within this short period of its introduction, so much so that the full complement of 30 teachers provided for in the scheme is now under training and that more schools than can be provided for are now eager to come under the scheme. It is hoped that in due course these trained teachers will succeed in creating an agricultural bias among the students of their respective schools. As one of the possible means of solving the vexed problem of middle class unemployment the result of the scheme for the training of *bhadralog's* sons (who on completion of their training will be provided with khas mahal land for carrying on agriculture on business lines) is also being watched by Government with keen interest. The sooner the middle class youth learns the dignity of manual labour the better not only for themselves but also for the economic salvation of the country.

3. **Cattle breeding** is another important aspect of the activities of the department. While it is satisfactory to note that the Premium Bull system has been working satisfactorily, the report that the bulls purchased for the co-operative societies under the new scheme are not so satisfactory has been a source of some anxiety. Government, however, share the hope expressed by the Live-Stock Expert that when the societies learn to feed their bulls properly better results will follow.

4. **Sericulture.**—The most noticeable points in the activities of the Sericultural Section of the department are:—

(1) that attempts are being made to organise co-operative societies among the men engaged in the profession with the main object of financing the industry; and

(2) that the programme for demonstration and propaganda is being systematically carried out in several districts.

5. **Royal Commission.**—Most of the recommendations of the Royal Commission have been considered by this Government; and it is worthy of note that the policy underlying a large number of them is already being followed in this Presidency. There are, however, some recommendations which entail additional expenditure; and Government while highly appreciating their value is unfortunately not in a position to give effect to them under present financial conditions.

As observed by the Commission, there are some serious obstacles in the way of development of scientific agriculture in this country which have to be overcome before any appreciable headway can be made. Among them may be prominently mentioned:—

(1) inherent conservatism of the cultivators which makes them doubt whether the new methods and implements will suit their conditions and purse;

(2) subdivision and fragmentation of holdings mainly due to the land laws and laws of inheritance; and

(3) general poverty of the cultivating class which gets them into the usurious grasp of village mahajans.

6. **Acknowledgment.**—The thanks of Government are due to Mr. Finlow for his efficient administration of the department. The names of the other officers—superior and subordinate—commended in the report are also noted with pleasure. Government would also acknowledge with thanks the assistance rendered by a gradually increasing number of officials and non-officials to the department in its various activities and the co-operation of the members who serve ungrudgingly on the Board and Committees connected with the department.

REPORT.

In the Court of the Commissioners appointed under section 36, clause 2, of the Bengal Electoral Rules and Regulations, 1926, Barisal.

PRESENT:

A. Ghosh, Esq., President.
Dewan Bahadur S. P. Sen, Commissioner.
Rai G. C. Das Gupta Bahadur, Commissioner.

Maulvi Rahim Bux Salem, petitioner

versus

(1) Maulvi Muhammad Husain, of Bhasanchar, (2) Maulvi Hasemali Khan, Pleader, Barisal, (3) Maulvi Fazlal Karim Chowdhury, of Ulania, (4) Maulvi Khorsed Alam Chowdhury, of Ulania, (5) Maulvi Syed Azizar Rahaman, of Batamara, and (6) R. H. Hutchings, Esq., I.C.S., Returning Officer, respondents.

This is an election petition filed by Maulvi Rahim Bux Salem, an unsuccessful candidate at the last Bengal Council election, under section 32 of the Bengal Electoral Rules and Regulations, 1926, to set aside the election of Maulvi Muhammad Husain to the Bengal Legislative Council for Bakarganj North (Muhammadan) constituency.

The grounds on which the petition is based are as follows:—

(*i*) That the Batamara Hat and Safipur Mian Bari were declared and published to be two of the polling stations for the 5th June 1929, but no polling was held at either of these two stations, there being no such place as Batamara Hat at all.

(*ii*) That, at the instance of the respondent No. (1) and his agents and men, the elections that were to take place at Batamara Hat and Safipur Mian Bari were actually held at Ramchar Hat, in a different mauza, and at the Safipur Board School, far away from Safipur Mian Bari.

(*iii*) That in consequence of the sudden shifting of the polling centres without any previous notice, the voters, who would have voted for the petitioner, were seriously misled and could not record their votes at all and the petitioner lost about 150 votes on this account.

(*iv*) That the Presiding Officer or the polling officers had no authority to change the places of voting which were already notified as polling centres and they had no authority to select a new place as polling station.

(*v*) That no secrecy in the matter of recording votes was observed at either of these two stations—the votes being recorded in one case in an open ground, without any roof or enclosure in a part of the Ramchar Hat, on the hat day, and in other case in the open verandha of the Safipur Board School. The votes recorded at these two places ought to have been rejected.

(*vi*) That the Presiding Officer at Udaypur polling station refused to record the votes of more than 40 voters on mere technical defects in pronunciation of their names or in omitting the words as "Howladar", "Munshi", "Maji", etc., which are generally added to the names in writing but are generally omitted when one speaks of his own name. About 40 votes that would have been recorded in favour of the petitioner were thus refused to the serious prejudice of the petitioner. The names of voters whose votes were thus rejected were marked with "R" by the Presiding Officer.

(*vii*) That the respondent No. (1) and his agents and men engaged on his behalf promised, offered and distributed illegal gratifications and bribes and rewards and donations in many places to seriously influence the voters in favour of respondent No. (1) and against the petitioner and persuaded many voters to refrain from voting for the petitioner.

(*viii*) That the respondent No. (1) and his agents and men treated the voters with food, *sarbat*, drink, *pan*, cigarettes and sweetmeats in many places.

(*ix*) That the respondent No. (1) and his agents and men on his behalf paid boat hires, motor hires for the conveyance of the voters to and from the polling stations.

(*x*) That the return of election expenses filed by the respondent No. (1) is not correct and is full of falsifications. He has not shown the actual receipts and expenditure incurred by him or his agents and men.

(*xi*) That the respondent No. (1) by himself or by his agents and other persons acting on his behalf and with his knowledge or connivance was guilty of bribery, treating, undue influence, personation, publication of false statements, illegal hiring and use of motor cars and boats, illegal payment and other corrupt and illegal practices in contravention of the electoral laws, rules and regulations, before, during, and after the said election.

(*xii*) That the nomination paper of the respondent No. (1) should have been rejected by the Returning Officer, respondent No. (6), as in the electoral roll his father's name did not appear and it could not be ascertained if he was the real person whose name appeared in the electoral roll as Muhammad Husain.

(*xiii*) That the respondent or his agents and men appointed on his behalf printed and published pamphlets and posters and handbills without the name and address of the printer and publisher thereof, the pamphlets containing indirect insinuation against the petitioner and thereby seriously prejudicing the petitioner's election.

The petitioner relies on the following among other corrupt practices committed by the respondent No. (1) or his agents and other persons acting on his behalf or with his knowledge and connivance:—

(*a*) Payment of a sum of money to the Secretary or the Managers of the School at Gangapur.

(*b*) At first a promise to pay a sum of money to the managers of the school at Lalmohan and failing to pay in cash, the giving of a hand-note on the day of election.

(*c*) A promise of a donation to the managers of the Patarhat H. E. School and the Charpata Madrassa given by the respondent No. (1) and his agents and men.

(*d*) Treating of voters at Jaynagar and paying remuneration to the voters there.

(*e*) Paying remuneration to voters at Mirjakaloo, Debirchar, Kalma, Ulania, Larua, Kanaiganj, Char Bhuta and Agarpur.

(*f*) Paying hires of motor cars for the voters at Barnaddi, Joynagar, Alinagar, Bhola and Debirchar.

(*g*) Payment of a donation to the Larua Board School, Paschim Larua L. P. Muktab, Uttar Sultani Muktab, Asha Muktab and Memania Junior Madrassa.

(*h*) Payment of boat hire for the voters at Babuganj, Agarpur, Muladi and Ramchar Hat.

(*i*) Printing, publishing and circulating pamphlets and posters without the name and address of the printers and publishers thereof.

(*j*) Treating voters with food, drink, *sarbat*, sweetmeats, *pan*, cigarettes at Muladi, Safipur, Ramchar, Larua and Kanaiganj.

(*k*) That the respondent No. (1) has not shown the amounts drawn by him through his agents and men from the Barisal *Rindan* Samiti for the election expenses, *e.g.*, Rs. 500 on the 9th May 1929, taken by his agent Makbul and Rs. 1,000 on the 15th May 1929, taken by his brother Abdul Hamid.

(*l*) That the respondent No. (1) has not shown the remittances made by him by postal money-order from Barisal to Maulvi Akimaddi, pleader, at Bhola.

(*m*) That the respondent No. (1) has not shown the expenses incurred by his agents and men—(1) Kuti Mian Choudhury at Debirchar and Gazaria centres, (2) Elahi Bux Choudhury, at Kalma and (3) Akimuddin at Hat Sashiganj.

(*n*) That the respondent No. (1) has not shown the expenses incurreed by his supervising agents, namely, (1) Abdul Waheb Khan, pleader, (2) Maulvi Azizuddin, pleader, (3) Mafuzzal Haque, pleader of Barisal, and (4) Tofel Ahammed Chowdhury, Abdur Rahim Chowdhury and Chand Ahmed Mian of Gangapur.

The respondents No. (1) and No. (6) appear and file separate written statements traversing all the allegations contained in the petition.

With reference to the pleadings the following issues were framed:—

(*1*) Is the list filed with the election petition in accordance with the provisions of the Bengal Electoral Rules? If not, has the respondent No. (1) been prejudiced thereby?

(*2*) Were the polling centres of Batamara hat and Safipur Mia Bari shifted, if so, was any voter misled thereby and has the result of the election been materially affected thereby?

(*3*) Is the allegation of the petitioner that no secrecy was observed at Batamara and Safipur centres true?

(*4*) Was any vote improperly rejected by the Presiding Officer at Udaypur as alleged in the petition?

(*5*) Is the respondent No. (1) or his agents, or his men to the knowledge of the respondent No. (1), guilty of the corrupt practices as alleged?

(*6*) Has the nomination paper of the respondent No. (1) been improperly accepted by the Returning Officer?

(*7*) Has the result of the election been materially affected by any irregularity alleged in the petition?

(*8*) Is the return of election expenses filed by the respondent No. (1) true and bona-fide: if not, is the election liable to be set aside?

(*9*) If the election of respondent No. (1) be set aside, is the petitioner declared to be duly elected?

(*10*) Is the election liable to be set aside?

(*11*) To what relief, are the parties entitled?

Findings.

The petitioner complains of irregularities and corrupt practices. In sub-clause (*i*) to (*v*) of paragraph 5 of his petition he has set forth certain facts in connection with the pollings at Batamara Hat and Safipur—two of the polling centres. As regards the former, it is said (*a*) that there was no place called Batamara Hat: in reality, such a place as Batamara Hat had no existence at all; that the polling which was declared to be held at Batamara Hat was held at the Hat of Ramchar—a village in the neighbourhood of Batamara village: (*b*) that the polling at the Hat of Ramchar was held on a market day on an open piece of ground without any roof or enclosure.

These allegations are traversed *in toto* by the respondents No. (1) and No. (6). So, the pleadings of the parties give rise to the two following points for our consideration:—

Firstly, whether there was a place called the Batamara Hat or whether such a place did not exist at all.

Secondly, whether the polling in question took place on a hat day in an open place at a Hat, called Ramchar Hat.

P. W. No. 7, Nogendra Nath Biswas, post master of Safipur Mia Bari post-office, and P. W. No. 17, Mahatab Mia, are the only two witnesses on the side of the petitioner who say that there is no place called Batamara Hat.

P. W. No. 7, it appears, did not see Batamara at all. So he is not a competent witness to prove the non-existence of Batamara Hat. Further he is a relation of an amla of the "Mias" of Safipur, about whom we shall have to say a good deal later on. As for P. W. No. 17, Mahatabuddin, he is a tahsildar of Akijuddin, who is a nephew of the petitioner, and he was also his canvasser at the election centre at Batamara. As against P. W. No. 7 and No. 17's testimony we have the testimonys of D. W. No. 1, Abdul Kuddus, the officer in charge of Mouladi police-station, who was to arrange for the polling centre at Batamara and other places, and D. W. No. 3, Narendra Mohon Mukerjee, the Circle Officer, who was the Presiding Officer at the said polling station and Muhammad Husain [respondent No. (1)].

Next, we have the map of Muladi thana (Ex. 1) which purports to show that there is a hat at Batamara which is held twice in a week. The list of centres for the election of 1926 (Ex. F) also purports to show that in 1926 the polling took place at Batamara Hat.

Only P. W. No. 17, Mahatabuddin, who was no doubt a voter, says that he went with some voters to Rashid Panchait's bari at Batamara and found there no arrangement for taking votes, that he met there the old father of Rasid Panchait who said that he did not know that the polling would take place at his house, that after waiting for 2½ hours there he (Mahatab) and others dispersed, and went for marketing to Ramchar Hat where he found that the polling was going on, but he could not get access to the polling enclosure.

In our opinion, the bare denial of P. W. No. 7 and P. W. No. 17 who are partisan witnesses is quite insufficient to outweigh the documentary, as well as, the oral evidence of such respectable men as the officer in charge of Muladi and the Circle Officer. The evidence of P. W. No. 17 that he and voters with him were misled by the declaration that the voting would take place at Batamara Hat is quite untenable. The objection of the petitioner under this head is therefore unfounded and so it falls through.

As regards the next point, viz., whether any secrecy was observed at the said centre, it appears to us that there is absolutely no reliable evidence in support of so serious a charge. P. W. No. 17, Mahatabuddin, is the only witness examined by the petitioner on this point. As already observed he is not a disinterested witness, and so his evidence cannot at all be relied on. The next witness is Nagendra Nath Biswas, the post master of the Mia Bari post-office. He produced a book purporting to be a register containing orders of the Inspector of post-offices, but it

furnished us with no indication that the Batamara Hat is an imaginary place.

This witness (Nagendra Nath Biswas) is, without any doubt, a creature of Mosleuddin Mia, about whom we shall have to comment later on in connection with the question of the shifting of the polling centre from the Mian Bari of Safipur to the Board School at Safipur.

In our opinion having regard to what Abdul Kaddus and Narendra Nath Mukerjee have said upon this point, there could be no doubt that the petitioner's allegation that the polling took place on an open ground in the hat is untrue.

2. As regards Safipur Mian Bari polling centre, there are two contentions raised by the petitioner: First, the polling centre was, without any previous notice, shifted from the Mian Bari at Safipur to the Board School at Safipur, at the instance of the respondent No. (1) or his agent: Secondly, that no secrecy was observed at the polling centre.

It is common to both the parties that the polling at Safipur was held in the verandha of the Safipur Board School.

The petitioner has examined three witnesses, viz., P. W. No. 6 (Mosleuddin), P. W. No. 7 (Nagendra Nath), the post-master and P. W. No. 13 (Kunja Das), a naib of Moslemodi Mian, to show that the Board School at Safipur is outside the limits of the Bari known as Mian Bari.

Moslemodi is the husband of Salem Mia's (petitioner's) niece: and P. W. No. 7 (the post-master) and P. W. No. 13 (the naib of Moslemodi) appear to be the creatures of Moslemodi.

The story told by Moslemodi is, to state it shortly, as follows: He was the President of the Safipur union board; he was a member of the Safipur Mian Bari; he was asked by the Sub-Inspector of Muladi and the Sub-Registrar to make all the necessary arrangements for the polling in his Bari; he did so. On the polling day (22nd Jaistha) the above two officials came to his kutchery and made further necessary arrangements in a ghar within his kutchery: a table was placed in the room and the ballot-box was put upon that table: after a short time, the said officials took away the ballot-box and papers from his room into the Board School for holding the polling there.

On the other side Abdul Kuddus, officer in charge of Muladi, and Dinesh Chandra Roy (Sub-Registrar) who was the Presiding Officer at the said polling station were examined. Dinesh Babu said that he and Abdul Kuddus were received at the ghat of the Mian Bari by Moslemodi and that while walking with him to his house where they were to take their meals, he noticed the enclosure, etc., in the Board School and was told by Moslemodi that that was the polling station.

In our opinion, preference must be given to the testimony of the two officials, who are, beyond all doubt, men of respectable position. The story told by Moslemodi does not appear to us to be true. He does not assign any reason why, having made the necessary arrangements in a room of his kutchery, the two officials would suddenly shift the centre from his kutchery to the Board School, and carry away the table and ballot-box. He as the president of the union board was asked beforehand to arrange for the polling station; and, having regard to the testimony of Abdul Kuddus and Dinesh Babu, it is perfectly clear to us that the polling station was set up in the Board School by him before the arrival of the officials at Safipur.

Having said this much, we have to observe that the polling centre has been described to be Safipur Mian Bari. Admittedly the "Mias" of the place are men of influence, and position. The election of the year 1926 was held in one of the kutchery ghars of the Mian Bari. The Board School is at a distance of nearly 300 or 400 cubits from the Mian Bari proper.

The evidence goes to show that a lawn and a ditch lie between the school-ghar and the residential portion of the Mian Bari. Therefore, having regard to the situation of the Board School, it may not be unreasonable to suppose that it is not included within the Mian Bari. The point is certainly not free from doubt. The Sub-Registrar (D. W. No. 2), who was the Presiding Officer at the Safipur centre, when arriving at the place and going towards the Mian Bari, seemed to have been in doubt as to whether the school-ghar, where arrangements for the polling had been made, actually appertained to the Mian Bari where the election was to be held. On being told that it was so by P. W. No. 6 (Syed Mosleuddin), he did not think over the matter any further, and shortly afterwards commenced recording votes in the school-ghar. If, therefore, the Board School did not fall within the compound of Mian Bari, all that can be said on the point is, that it was an irregularity to hold the election there. We are, however, of opinion that it was by no means a material irregularity. The school-ghar as stated above is almost within the precincts of the Mian Bari and is situated by the side of the doroja leading to that bari from the steamer station. Its situation is therefore better and more convenient for recording votes than in the Mian Bari proper. The voters could not, therefore, be in any way misled or prejudiced on their way towards Mian Bari to have their votes recorded. On seeing all preparations for election at the school-ghar, it would be natural for them to approach it, instead of going to the inner compound of the Mian Bari. As a matter of fact there is no evidence to show that any voter was actually misled by the irregularity. Under rule 44, clause (c), of the Bengal Electoral Rules, we therefore hold that the result of the election has not been materially affected by this irregularity, if any. The burden of proof being on the petitioner, he has failed to establish beyond reasonable doubt that the description "Mian Bari" in the list of election centre is necessarily wrong and that the school-ghar is not included in it.

As regards want of secrecy at the Safipur centre, we are not inclined to place any reliance on P. W. No. 7 (post-master) and P. W. No. 13 (the naib of Moslemodi) in preference to Abdul Kuddus and Dinesh Chandra Roy.

3. The next objection [vide sub-clause (5)] of the petition is that the Presiding Officer at Udaypur polling station refused to record the votes of more than 40 voters on mere technical defects in pronunciation of their names or in omitting the words as "Howladar", "Munshi", "Miaji", etc., which are generally added to the names in writing but are generally omitted when one speaks of his own name.

This objection has been amplified in the evidence in the following manner:—

(*a*) Aminaddi Dalal, voter No. 147 of the list having omitted the word "Harkara" from his father's name, his vote was refused on the flimsy ground that his father's name did not correspond with that in the list.

(*b*) Nur Mohomed Howladar, voter No. 387 of the list, having said that his name was Noor Mohomed without mentioning "Howladar", his vote was refused.

(*c*) Motiar Rahman, voter No. 501 of the list, having said that his father's name was Hamidali Miaji, his vote was refused on the ground that there was no such name in the list.

(*d*) Jobborali, voter No. 343 of the list, having said that his father's name was Kamal Miaji, his vote was refused as in the list his father's name appeared as Kamal Miasaheb.

Regulation XXXV provides as follows:—

"At any time before a ballot paper is delivered to an elector, the Presiding Officer or Polling Officer may, of his own accord, if he has reason to doubt the identity of the elector or his right to vote at such station, and shall, if so required by a candidate or polling agent, put to the elector the following questions:—

(*1*) Are you the person enrolled as follows (reading the whole entry from the roll)? and,

(*2*) Have you already voted at the present election in this constituency? and, at a general election,

(*3*) Have you already voted at this general election for the Legislative Council in any other general constituency?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative, the second question in the negative, and, at a general election, the third question also in the negative."

Now the witnesses whose evidence requires examination by us are:—P. W. No. 18 (Aminaddi Dalal), P. W. No. 19 (Noor Mohommed), P. W. No. 27 (Matiar Rahman), P. W. No. 29 (Jobborali), P. W. No. 10 (Syed Bazlal Rahman) and P. W. No. 26 (Azizar Rahman *alias* Nabab Mia).

As regards the rejection of P. W. No. 19 (Noor Mohomed Howladar) to vote, the matter may be disposed of on the short ground that in the list of voters the name of voter No. 387 is Noor Mia, and as the witness did not say that his name was Noor Mia, the Presiding Officer was right in refusing his vote.

As regards the rest of the witnesses the first thing that strikes us is that witnesses on the same point were examined with intervals between them, affording thus an opportunity to make up the short-comings of the previous witnesses. It also appears to us that P. W. No. 10's (Syed Bazlal Rahman) name was not given in the first list of witnesses filed on the 16th December, but it was interpollated later on.

Syed Bazlal Rahman (P. W. No. 10) said that he was the President of Pakhi union board with powers to try criminal cases; he was present at the Udaypur centre; he said that the votes of Noor Mahammed and Aminaddi Dalal were refused.

Azizar Rahman *alias* Nabab Mia (P. W. No. 26) came last and supplemented the evidence of P. W. No. 10 by stating that the votes of P. W. No. 18, P. W. No. 19, P. W. No. 27, P. W. No. 29 and of other voters, in all 40/50 votes were refused on similar grounds.

The substance of his evidence is that although some of the voters gave correct names and descriptions their votes were improperly refused.

As against this, we have the evidence of the Presiding Officer Sachindra Nath Ghosh, a Circle Officer (Sub-Deputy Magistrate).

We are of opinion that no reliance can be placed upon the testimony of either Syed Bazlar Rahman (P. W. No. 10) and his nephew Nabab Mea (P. W. No. 26). There is clear evidence that they are partisan witnesses. P. W. No. 10, it appears served some processes in this case on behalf of the petitioner, and P. W. No. 26 was the canvasser for the petitioner at two centres. P. W.s Nos. 27 and 29 are tenants of Nabab Mia. Neither he nor P. W. No. 10 informed the petitioner in time on this point, to enable him to give detailed particulars in the list of irregularities filed with the petition. He was and is an active partisan of Salem Mia (petitioner).

We hold therefore that there was no improper rejection of votes at Udaypur centre.

The next objection regarding the nomination of Mahammed Hussain [respondent No. (1),] is that as in the electoral rolls, the name of his father does not appear his identity was not established.

Rule 9 enacts: "An electoral roll shall be prepared for every constituency, on which shall be entered the names of all persons appearing to be entitled to be registered as electors for that constituency. It shall be published in the constituency together with a notice specifying the mode in which and the time within which any person whose name is not entered in the roll and who claims to have it inserted therein, or any person whose name is on the roll and who objects to the inclusion of his own name or of the name of any other person on the roll, may prefer a claim or objection to the Revising Authority."

Regulation XXI enacts: "The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination, and may, either on such objection or on his own motion, after such summary inquiry, if any,

as he thinks necessary, refuse any nomination on any of the following grounds:—

(*i*) that the candidate is ineligible for election under rule 5, or rule 6; or

(*ii*) that a proposer or seconder is disqualified from subscribing a nomination paper under sub-rule (*4*) of rule 11; or

(*iii*) that there has been any failure to comply with any of the provisions of rule 11 or rule 12; or

(*iv*) that the candidate or any proposer or seconder is not identical with the person whose electoral number is given in the nomination paper as the number of such candidate, proposer or seconder, as the case may be; or

(*v*) that the signature of the candidate or any proposer or seconder, is not genuine or has been obtained by fraud."

In the first place, it does not appear to us that any objection was raised at the time of nomination as to the identity of Muhammad Husain. There can be no doubt, on reference to the certificate given to Muhammad Husain by Babu Sarat Chandra Guha, Chairman of the Barisal Municipality, that Muhammad Husain was the occupier of a holding in the Church Ward of the town and from his holding No. 50, his identity is proved.

We hold, therefore, that there is no substance in this objection.

5. As bearing on the question of irregularities and non-compliance with electoral rules, the following quotations appear to us to be very appropriate:—

"In this respect the law in India seems to be different from the English Law. Under section 13 of the Ballot Act (35 and 36 Victoria C, 33) no election shall be declared invalid by reason of non-compliance with the rules contained in the first schedule of the Act or any mistake in the use of the forms of the second schedule of the Act, if it appears to the tribunal having cognizance of the question that the election was conducted in accordance with the principles laid down by the Act and that such non-compliance or mistake did not affect the result of the election. Thus in accordance with the English Law if it has been proved that there was a non-compliance with the rules under the Act, the onus lies on the respondent of showing that this non-compliance did not affect the result of the election. Whereas under rule 41 of the Bihar and Orissa Electoral Rules even though the petitioner succeeds in proving that there was a corrupt practice other than those mentioned in part I, Schedule 5, or that there was non-compliance with the provisions of the law under the Act, the onus still remains on him of showing that this corrupt practice or non-compliance materially affected the result of the election, or in other words, caused the returned candidate to obtain a majority of votes. In this connection we may point out that it has been held by Mr. Justice Grove in an English case (the Hackney case) reported in Volume II of O'Malley and Hardcastle, page 77, that the result of the election must be held to have been materially affected even if but for the irregularities in connection with the election the returned candidate would still have been elected though with a reduced majority. However this view has been dissented from in a subsequent case (The East Clare Case) reported in Volume IV of O'Malley and Hardcastle, page 162, in which it has been held that the result of the election cannot be said to be materially affected unless the irregularities which have occurred actually turned the scale in favour of the returned candidate. It is not sufficient to show that they have merely increased his majority. In our opinion there can be no doubt that the latter judgment represents the correct view of the law." (Jagat Narayan, Volume III, page 82).

Before concluding we would like to repeat the weighty observations of Baron Martin in the Warington Case reported in O'Malley and Hardcastle, Volume I, pages 42 and 44.

"It would be in my opinion ridiculous to say that because at one booth there was an irregularity the whole of the rest of the borough should be put to the trouble of a new election and all that has taken place declared null and void. I adhere to what Mr. Justice Willes said at Lichfield that a judge to upset an election ought to be satisfied beyond all doubt that the election was void and that the return of a member is a serious matter and not to be lightly set aside."

The difference between the English and the Indian Law on the subject may be thus expressed:—"The former only requires the creation of a presumption that the result may have been affected, the latter requires the creation of a presumption that it has been affected. The petitioner must establish as a fact that the result was (not might have been) materially affected and he must be able to prove either that the respondent gained or the petitioner lost a definite number of votes.

Thus, in the present case, the petitioner must not only show that corrupt practices or irregularities have taken place, but he must further show that but for these corrupt practices or irregularities the returned candidate would not have obtained a majority of the votes.

6. Having dealt with the objections regarding irregularities and non-compliance with electoral rules, we next take up the "corrupt practices" as alleged in the petition.

Rule 33 of the Bengal Electoral Rules and Regulations, 1926, enacts as follows:—"The petition shall contain a statement in concise form of the material facts on which the petitioner relies and shall, where necessary, be divided into paragraphs numbered consecutively. It shall be signed by the petitioner and verified in the manner prescribed for the verification of pleadings in the Code of Civil Procedure, 1908.

(2) The petition shall be accompanied by a list signed and verified in like manner setting forth full particulars of any corrupt practices which the petitioner alleges, including as full a statement as possible as to the names of the parties alleged to have committed any corrupt practice and the date and place of the commission of each such practice.

(3) The Commissioners may, upon such terms as to costs and otherwise as they may direct any time, allow the particulars included in the said list to be amended or order such further and better particulars in regard

to any matter referred to therein to be furnished as may in their opinion be necessary for the purpose of ensuring a fair and effectual trial of the petition.

At page 170 (Hammond) a sample is given as to what the contents of an election petition should be.

In connection with the question of corrupt practices the following quotations will be found very useful: "to my mind no particulars ought to be delivered unless the petitioner has in his possession some evidence in support of them which he can lay before the Court. Suspicion is not sufficient to justify the insertion of a charge in the particulars. That may justify the wideness of the petition, but it does not justify the wideness of the particulars, because they are intended to give the respondent notice of what are the charges which are intended to be proved against him, and it is necessary for his defence that he should at once incur the expense of investigating those cases and for preparing himself for trial."

* * * *

"Those who draw particulars should understand that they are not at liberty to throw charges about broadcast, but should confine themselves, as far can reasonably be done, to those charges which they actually have the means, or expect to have the means, of establishing at the trial."

* * * *

"The object is, that the parties who come here to try an election petition and defend the seat, shall not have matters, sprung upon them in such a way as to embarrass them in the answer they give; and it is clear that it would embarrass the sitting member very much if he were to have cases of bribery or cases of treating sprung upon him at the last moment. Particulars, therefore, are ordered before the trial, and particulars are ordered, of course, to be given to the extent to which they can be given, that is to say, so far as the knowledge and information of the persons upon whom the order is made enables them to comply with the order. In this case full particulars have been given. A number of names have been given of persons who are supposed to have been treated or bribed at particular places and at the end of the list of names comes this, that persons are supposed to have been bribed whose names are at present unknown; and the persons who are presenting the election petition may really be bona-fide ignorant of the names of the persons who are receiving bribes or being treated at that particular place; and they ought not to be prevented from going into those cases simply because they cannot give the names of the persons with respect to whom the criminal act is supposed to have been committed. What they are bound to do is to tell the most they can at the time these particulars are given; and, at all events, before the trial to tell as much as they can to prevent surprise or expense."

This being the position of the law, we find that in the present case the petitioner did not amend his petition by giving full particulars which he might have done under clause (3) of rule 33.

In our opinion, the petition is not only lacking in details but is quite vague, meagre and obscure in material particulars. It is a striking feature of the case that almost all the witnesses for the petitioner have deposed that they did not disclose to him what they knew about the corrupt practice or practices; nor did the petitioner pledge his own oath in this case.

7. With these preliminary remarks we refer to the list of corrupt practices annexed to the petition. Broadly speaking, the corrupt practices may be classified under the following heads:—

(*1*) Treating voters.
(*2*) Payment or promise to pay money to educational institutions.
(*3*) Payment of motor hires or boat hires.
(*4*) Bribes to voters.
(*5*) Publication of posters without the printer's name.

8. As to No. 1 (treating voters) at the 12 centres named in the petition, evidence was given with regard to 3 centres only, namely, Debirchar, Larua and Baranaddi. As regards Debirchar, P. W. No. 3 was the only witness examined by the petitioner, but he proved nothing. As regards the Larua centre, P. W. No. 20 (Abdul Karim), P. W. No. 21 (Nuzemadi Kazi) and P. W. No. 22 (Nooral Haque Mal) were examined by the petitioner to prove that betel, sarbat and cigarettes were given to the voters by Muhammad Husain's men.

Abdul Karim is a tenant of the Ulania zamindars who had been backing the petitioner; respondents Nos. 3 and 4 are members of the Ulania family; respondent No. 5 is Nabab Mia; Nos. 3, 4 and 5 who were candidates at the last election, appear to have withdrawn from the contest and allied themselves with the petitioner. The next witness is P. W. No. 21. He is a tenant of the Ulania zamindars and his cousin Tofazal is related to them. There is discrepancy between P. W. No. 20 and P. W. No. 22 as to the mode of treating. P. W. No. 22 admits that he holds some lands under the Ulania zamindars, but adds that he has not got to pay rent; it was not likely that P. W. No. 22 would be chosen by Muhammad Husain to cater to his voters.

It does not appear that P. W. No. 22's name was given in the first list of witnesses filed on 16th December; but it was given in the subsequent list of 4th January. P. W. No. 22, at first, gave an evasive reply to his having got a telegram from Nagor Mia asking him to attend Larua centre on behalf of Salem Mia (the petitioner), but later on, he admitted to have received such a telegram from Nabab Mia, either of Ulania or of Batamara. (There are two Nabab Mias in this case who are both partisans of Salem Mia). No complaint was made to the polling officers that voters were being treated.

As regards Baranaddi centre, the evidence about "treating" is meagre and insufficient. P. W. No. 16 (Ahammed Howladar) who says that there was a talk about arrangement for pan, sarbat, etc., does not depose that he actually saw that these things were distributed to voters. He seems to be under the influence of Nabab Mia (P. W. No. 26), who,

hough present at the Baranaddi centre at he time of election, does not say that any ort of treating took place at that place while he election was going on. The evidence of '. W. No. 16 has been discussed in paragraph 5 about payment of motor hires.

Treating is defined as follows:—"For the urpose of this sub-rule 'treating' means the ncurring in whole or in part by any person f the expense of giving or providing any ood, drink, entertainments or provisions to ny person with the object, directly or ndirectly, of inducing him or any other erson to vote or refrain from voting or as a eward for having voted or refrained from oting."

In connection with the question of "treating" and "corrupt practices," the following uotation (Hammond, page 132) will be found ery useful:—

"'Treating' is a form of bribery, and if esorted to on a large scale might, like eneral bribery, invalidate an election, on a etition filed under rule XXXII (I) (*b*) by n officer empowered by the Local Government on the ground that the election has not een a free election. Such treating need not ecessarily be traced to the candidate or gent. If it be proved that there was 'an rganized system for debauching the voters' he election would be defeated. (Drogheda, 869: 1, O'M. & H., 257). Treating to be eneral' must produce an effect upon a conderable number of minds (Hexham, 1892,: , O'M. & H., 147), but 'a very small amount s sufficient to procure a great deal of popularity'.

* * * *

"'Corruptly' means 'with the object and ntention of doing that thing which the tatute intended to forbid.' (Norfolk, 1869: , O'M. & H., 242). There must be the ntention of obtaining a vote."

"What the legislature means by the word 'orruptly' for the purpose of influencing a 'ote, is this: that whenever a candidate is, ither by himself or by his agents, in any vay accessory to providing meat, drink, or ntertainment for the purpose of being elect d, with an intention to produce an effect pon the election, that amounts to corrupt reating. Whenever, also, the intention is y such means to gain popularity and there- y to affect the election, or if it be that persons are afraid that, if they do not provide ntertainment and drink to secure the strong nterest of the publicans, and of the persons vho like drink whenever they can get it for othing, they will become unpopular, and hey therefore provide it in order to effect he election—when there is an intention in he mind either of the candidate or his agent o produce that effect, then I think that it is 'orrupt treating. But everything is involv- d in the question of intention, and it be- 'omes important to see what is the amount of he treating."

* * * *

It will be seen that treating is therefore egarded as one form, but a less noxious 'orm, of bribery. The difference is set forth y Lawrence, J., in Bodmin (1906: 5, O'M. & H., 231).

"There is a clear distinction between bribery and treating. In cases of bribery there is always something in the nature of a contract—'If you give me a sovereign I will give you a vote'—or some such understanding, but treating is an entirely different matter. In treating it is not necessary that the person treated should belong to the opposite party, whereas it is of no use to give money to a man who is going to vote for you already; the money must be given to the other side in order to draw another vote. But if you give drink to a man with the intention of confirming his vote and of keeping up the party zeal of those believed to be already supporting your candidate, then that is corrupt treating."

* * * * * * * *

A short definition of 'treating' was given in King's Lynn, 'the corrupt giving of meat, drink or entertainment to persons in order to influence their votes', or in another case, more bluntly as. 'getting at the voters through their mouths and through their stomachs.'

Testing the evidence, we are of opinion that it has not been proved that the voters were treated with sarbat, betel, cigars at any of the polling centres mentioned in the petition.

9. As regards payment or promise of payment of money to educational institutions as donations or subscriptions 9 schools are enumerated in the petition, as having got such money from Muhammad Husain: with regard to 5 of these schools, the petitioner did not adduce any evidence, but has narrowed the range of our enquiry by restricting himself to the following four institutions:—

(*a*) Lal Mohon H. E. School.
(*b*) Charpata Senior Madrassa.
(*c*) Larua Board School.
(*d*) Asa Moktab.

We propose to deal with the evidence relating to each of them in the order in which we have enumerated them, but before doing so, we must observe that in the petition details are lacking of such important particulars, as, when and where and by whom and to which person the payment or promise was made.

10. **As regards Lalmohon School.**—In the petition it is said "at first he promised to pay a sum of money to the managers of the school at Lalmohon and failing to pay in cash the giving of a hand-note on the day of election." So no details are given in the petition as to by whom and in whose favour the hand-note was given or what was the amount of the hand-note.

P. W. No. 11 (Abdul Waheb) said that eight or ten days before the election he and others met Muhammad Husain and his party at Abdul Barik's basha at Mehendiganj Bandar. Eslam Panchait was present and he was their spokensman. There was some higgling and haggling for money. A sum of Rs. 500 was demanded by Eslam Panchait for the school, but eventually the matter was settled for Rs. 200; Rs. 25 was paid by Muhammad Husain (respondent No. 1) then and there to meet extra charges, a fact not mentioned in the list of corrupt practices.

P. W. No. 11 heard from Eslam Panchait that Emdad Mia had executed a hand-note in favour of Eslam. P. W. No. 11 said that the said hand-note was returned to Emdad Mia (D. W. No. 5) on that very night, at Sarat Doctor's dispensary and in his presence on account of Kutti Mia's interference. P. W. No. 14 (Nur Mahammed), a member of the school committee, purports to prove the higgling for money and the execution of a hand-note by Emdad Mia at Sarat Doctor's dispensary and its return to Emdad Mia on that night. P. W. No. 15 (Ahammed Mia), also purports to prove the higgling for money at Abdul Barik's basha; the execution of the hand-note, its return to Emdad Mia. P. W.s Nos. 11, 14 and 15 are connected with each other and appear to have been recruited from the same camp.

As against their evidence we have D. W. No. 5's (Emdad Mia) testimony who denied having executed any hand-note in favour of Eslam Panchait, and that of respondent No. (1) who says that he never promised or paid any money for the Larua Board School. Further Sarat Doctor, Eslam Panchait and Abdul Barik who are material witnesses on this point have not been examined at all.

Considering, therefore, the evidence as discussed above, we are of opinion that it has not been proved that respondent No. (1) made any promise to pay Rs. 25 or any money as alleged. Neither the execution of the hand-note nor its return has been proved. The story is absurd.

11. **As regards Charpata Senior Madrassa.** —It is said in the petition "A promise of a donation to the manager of the Charpata Madrassa given by the respondent No. (1) (Muhammad Husain) and his agents and men."

The story in connection with this school is that Muhammad Husain (respondent No. 1) and his party came to Charpata at Erfanali's bari; there was an assemblage of some villagers there; it was settled after a good deal of higgling that Muhammad Husain would give some money as donation or subscription to the Charpata Senior Madrassa; two or three days before the polling, Emdad Mia, Akimodi, Pleader, and Wajed Muktear came to Charpata and took P. W. No. 1 (Ismail), Lutfar Rahman and Mujafar Hussain with them to Bhola, to meet Muhammad Husain. They met him at Bhola at the residence of Baranaddi Chowdhury. There a sum of Rs. 50 was put into P. W. No. 1's pocket against his wishes. He came back to his village and on the advice of Abdul Karim (P. W. No. 2) he returned Rs. 50 to Muhammad Husain through his nephew Fajle Ali. That on the day of the election one Habibar Rahman came to his house and gave out that he had brought Rs. 100 from respondent No. (1) for the school. In our opinion, the evidence of P. W. No. 1 cannot be relied upon; he was not the Secretary of the Charpata Madrassa at that time; in his examination-in-chief he said that he was present at Abdul Barik's house when the higgling for money took place, but in cross-examination he contradicted himself, and said that for the first time he met Muhammad Husain at Bhola when Rs. 50 was pressed into his hand. Kaloo Munshi is the behai of Salem Mia. His son (Yakub) is a member of the Charpata School. P. W. No. 1 is a relation of Salem Mia, though Kaloo Munshi and his son convassed for Salem Mia in the last election. He also purports to prove the meeting which is said to have been held at the basha of the Marriage Registrar for settling the accounts of the school committee. He said that Habibar admitted then that the money was with him and that he would pay the amount to P. W. No. 1 on the following morning.

The next witness is Abdul Karim. He is P. W. No. 1's brother-in-law. He purports to prove that Muhammad Husain and others came to Charpata to canvass for votes and met him at Erfanali's house. The talk for giving money to the school being broached, Tofel and Chand Mia said that giving of money at that time would be liable to misconstruction. He purports to prove the coming of Emdad Mia and two others to Charpata two or three days before the election. Next day he heard that Rs. 50 had been paid to P. W. No. 1 at Bhola. He asked P. W. No. 1 to return the money to respondent No. (1) which was much less than that promised.

This witness said that he did not know anything more. He did not say that Habibar came with Rs. 100 or that a conference took place at the house of the Marriage Registrar; or that Habibar admitted that the money was with him.

This witness is a teacher of the Charpata Madrassa, he was one of the executants of the bond of Rs. 1,000 which was executed by P. W. No. 1 and others in favour of Kaloo Munshi to raise a reserve fund for the school. So, if a sum of Rs. 100 was admitted to have been received by Habibar Rahman on the day of the election, or later on if a conference took place at the house of the Marriage Registrar where Habibar Rahman was alleged to have admitted that the money was with him, he ought to have known these important facts. But he stopped short at a certain stage as indicated above, and did not say anything about the conference held at the house of the Marriage Registrar.

The next witness is Khan Saheb Efajuddin (P. W. No. 4), the Marriage Registrar. He said that in July or August last at the time of settling the accounts of the school committee, on the dissolution of the old committee, there was a meeting at his house at Bhola when he was told by P. W. No. 1 and others that Rs. 100 as contribution from Muhammad Husain for the Senior Madrassa was with Habibar Rahman; Habibar Rahman told him that the said money was with Wajed Muktear.

There is discrepancy between P. W. No. 1 and P. W. No. 4's statement as to whether the money was with Habibar Rahman or with Wajed Muktear; P. W. No. 1 said that Habibar on being asked for the money said that the money was with him and he would return it on the next day, but the Marriage Registrar (P. W. No. 4) said that Habibar said that the money was with Wajed Muktear.

The Marriage Registrar is a friend of Salem Mia; Salem Mia stays with him when he comes to Bhola. There being a serious discrepancy between the testimony of P. W. No. 1 and P. W. No. 4, it would not be safe to rely upon these witnesses.

Seeing the discrepancy in the evidence regarding the conference and in order to reconcile both the statements of P. W. No. 1 and P. W. No. 4, Abdul Bari, pleader, was examined two days later (*i.e.*, on the 8th January). He said that at the Marriage Registrar's house Habibar said that the money was with Wajed Muktear; Wajed was not present at the conference at the Marriage Registrar's house but he met him later on at his Baithukkhana, when Wajed told him that Muhammad Husain had written him a letter, forbidding him to pay the money, as the number of votes fell short of that which was promised to him.

This witness appears to have issued an appeal on behalf of Salem Mia (Ext. A) to get him elected at the Council. This appeal will show his feelings towards Salem Mia: he is the bhairabhai of Salem Mia.

Thus, having considered the conflicting nature of the evidence as to the conference said to have been held at the house of the Marriage Registrar, we are unable to accept the story as told by these witnesses. Moreover, the allegation of the petitioner was that there was only a promise (vide the election petition); nothing was said there about the payment of Rs. 50 at Bhola to P. W. No. 1, or the return of the same on the advice of Abdul Karim through Fazeleali, or the admission of Habibar Rahman on the election day that he had received Rs. 100.

As a matter of fact Habibar Rahman has not been examined and his statement, if any, cannot be admissible as against respondent No. (1).

12. **Larua Board School.**—The petition is vague as to details. The witnesses examined are P. W. No. 8 Sub-Inspector of Schools, a merely formal witness, P. W. No. 9 Biswanath Das, P. W. No. 22 Nural Haque Mal, P. W. No. 20 Abdul Karim Talukdar and P. W. No. 21 Nazimuddin.

P. W. No. 9 Biswanath Das (Pandit of the Larua Board School) said, that on 4th June Abdul Hamid gave him Rs. 5 as subscription for procuring votes for Muhammad Husain. He is the ejaradar (farmer) of the betel mahal at Ulania bazar. He produces a book which purports to be the school register and shows an entry of payment of Rs. 5 by Abdul Hamid. The look of the register is suspicious. He is a man who appears to be under the sphere of influence of the Ulania Zamindars—some of whom were active supporters of Salem Mia (the petitioner) at the election. It is exceedingly improbable that Abdul Hamid would ask this witness who has ejara of a betel shop at the daroja of the Ulania zamindars to canvass for respondent No. (1) It is not difficult to fabricate some entries in a register with the help of this witness.

P. W. No. 22 says that he and Abdul Hamid and others had been to Biswanath Pandit's house to canvass for Muhammad Husain; he agreed to give Rs. 5 to Biswanath; he heard from Abdul Hamid on the day of election that Rs. 5 had been paid to Biswanath Pandit. This P. W. No. 22 holds some land within the estate of the Ulania Zamindars, but he adds that he does not pay any rent. He first attempted to deny the receipt of a telegram, but later on said that he had got one telegram from Nabab Mia but could not say which Nabab Mia. He has been already disbelieved as regards his evidence in "treating", vide paragraph 8. His brother Kamalazama acted as a peon in the post office at Ulania under Nagor Mia who had been looking after the case of the petitioner.

P. W. No. 20 is Abdul Karim Talukdar; he says that at Larua centre he was persuaded by P. W. No. 9 not to give vote to Salem Mia but to vote for Muhammad Husain; he was told that Muhammad Husain had paid Rs. 5 for the school. This man is a tenant of the Ulania Zamindars. We have already criticised him under the head "treating" and the remarks which we have made there about him need not be reiterated here.

P. W. No. 21 Nazimuddin said the same thing as P. W. No. 20. This man is a tenant of the Ulania Zamindars and his cousin Tofezel is related to them (Ulania Zamindars). On the side of the respondent Abdul Hamid (D. W. No. 10) denied in toto the allegation that he paid Rs. 5 to Biswanath Pandit.

We are, therefore, of opinion that it has not been proved that Rs. 5 was paid to Biswanath Pandit for the Larua Board School.

13. **As regards Asa Muktab.**—The details are not given in the petition. Witnesses examined on behalf of the petitioner are P. W. No. 23 Yakubali Munshi, P. W. No. 24 Abdul Hakim and P. W. No. 25 Fazle Rahman. P. W. No. 23 is the teacher of Asa Muktab. He said that Abdul Hamid saw him on behalf of Muhammad Husain and promised to give help to his muktab; on the day of polling Abdul Hamid gave him Rs. 5, which he seeks to prove from a certain entry in his register. So far as this entry is concerned, the remarks which we have made about the register of the Larua Board School are applicable.

His story is that he was sitting in the cloth shop of his brother which is at the daroja of Nabab Mia of Ulania when Abdul Hamid came there and gave him Rs. 5 in the presence of Abdul Hakim, Howladar and Fazlal Karim, Jamadar. Nabab Mia of Ulania is a co-sharer in the cloth business carried on by this witness's brother and, such being the case, we are not disposed to believe this witness. Nor was it likely that Abdul Hamid would make a payment of Rs. 5 to this witness in the presence of witnesses. P. W. No. 24 Abdul Hakim of Balia says that he was sitting in the cloth-shop when Abdul Hamid came and gave a note of Rs. 5 to P. W. No. 23: he was pressed by P. W. No. 23 either to vote for Muhammad Husain or not to vote at all and so he came away without giving any vote.

This P. W. No. 24 is a tenant of the Ulania Zamindars and he appears to have served the summons of Salem Mia in this case. Clearly, therefore, he is an interested witness and no reliance could be placed on him.

P. W. No. 25 Fazle Rahman purports to prove the same thing as the previous witness. His father was a Jamadar of the outer kitchen of the Ulania Zamindars.

In our opinion, it has not been proved that any promise or payment of money was made to the four schools mentioned above.

14. **Payment of remuneration or bribe to voters.**—In the petition it is said that at eight centres remuneration or bribe was paid to voters. But evidence was laid only regarding Agarpara centre. P. W. No. 28 is Aminaddi. He said that he was the polling agent of Salem Mia at Agarpara; he was beckoned by Rasik Das to come out; he saw Abdul Rahim with some voters to approach towards the polling centre; saw the agent of Muhammad Husain to give Rs. 10 to Abdul Rahim; he remonstrated with Abdul Rahim but the latter said that having taken money from Muhammad Husain's party he could not vote for Salem Mia. This P. W. No. 28 is a relation of Salem Mia; he did not complain of the bribe to the Presiding Officer although he purports to have acted as the polling agent of Salem Mia at that centre. Nabab Mia of Batamara is this P. W.'s nephew and, also, son of his bhaira. There could be no doubt that Nabab Mia of Batamara was an active supporter of Salem Mia and he was persent in Court, almost, during the whole of the trial. P. W. No. 28 said that 15 days after he met Salem Mia and related to him about the bribing of Abdul Rahim; he met Nabab Mia, in Agrahain, and told him also about the bribing, but it is curious to note that in the petition nothing has been said about bribing Abdul Rahim. The next P. W. is Rasik Das who purports to corroborate P. W. No. 28; he is in the service of Nanna Mia, a co-sharer of P. W. No. 28. He was, also, a canvasser for Salem Mia at the last council election, and appeared in Court without getting any summons.

We are of opinion, that no reliance can be placed upon the evidence of P. W. No. 28 and P. W. No. 30. None of them gives the name of the agent who is said to have paid Rs. 10 to Abdul Rahim in the very presence of the polling officer. No such complaint was made to the polling officer. Under these circumstances, we cannot believe P. W. No. 28 and P. W. No. 30.

The fact that these payments to voters have not been distinctly stated in the petition goes to show its falsity. Rasik Das's (P. W. No. 30's) name does not appear even in the list of witnesses.

15. **Payment of motor hires.**—It is said in the petition that at five centres the hire of motors for bringing voters to the polling stations was paid by the respondent No. (1), but only as regards Baranaddi centre evidence was adduced by the petitioner. P. W. No. 16 Ahamed Mia said that he was present at the Baranaddi polling station on behalf of Muhammad Husain; Muhammad Hasain gave Rs. 600 to Yakubali and Majibal Haque to meet the cost of bringing voters. He was compelled to admit that he did not see the payment of Rs. 600 to Yakubali and Majibal Haque, but added, that Muhammad Husain had said that he would make some *bondobost* with Majibal Haque and Yakubali about the motor hires. It appears from the evidence of P. W. No. 16 that there is a party feeling between this witness on the one side and Majibal Haque and Yakubali on the other side regarding election to a union board. There, also, apepars to have been a suit for enhancement of rent against P. W. No. 16 by Yakubali.

On the side of the respondents' D. W. No. 12 Aziauddin, pleader, Majibal Haque (D. W. No. 9) and Muhammad Husain (D. W. No. 7) traversed the allegation in toto. We are of opinion, that there is not sufficient evidence that motor hire was paid by Muhammad Husain at any of the centres for bringing the voters to the polling stations.

16. **Printing posters without printer's name.**—The poster in question is Ext. 19, and it only bears the name of the press. As held in the Saran Case of Nirsu Narayan Sing, reported in Hammond's Indian Cases, Vol. II, page 250, at page 252 the name of the place may be taken as the trade-mark of the printer, and the printer of a pamphlet is assumed to be the publisher also. In any case, we cannot find that the omission of the name of the printer or publisher of the poster or the leaflet has affected the result of the election within the meaning of rule 44, clauses (*a*) and (*b*) of the Electoral Rules.

The publication of leaflets without the names of the printers and publishers is a corrupt practice within the meaning of rule 44, clauses (*a*) and (*b*). But it must be shown that the result of the publication of such leaflets or posters would have been different if they had borne the names of printers and publishers, before they can be held to have materially affected the result of the election.

As regards the leaflet, it appears to us that mere laudatory statements in favour of a candidate which do not contain any false statement of facts do not come within the definition of false statement, that can avoid an election. Only such statement of facts, as are reasonably calculated to prejudice the prospects of such election, come within the purview of the definition of false statements. The leaflet in question does not contain any express or convert insinuation which amounts to a false statement against the petitioner. It only contains some opinions. There is also no evidence to connect the publication of the said leaflet with Muhammad Husain.

We are, therefore, of opinion that this objection must fail.

17. **Accounts.**—Paragraph 10 of the petition contains the allegation regarding accounts, and they are amplified in the list of corrupt practices under clauses (*k*), (*l*), (*m*), (*n*). The relevant rule is rule 5, clause 4 of the Bengal Electoral Rules which runs thus: "If in respect of an election to any legislative body constituted under the Act, a return of the election expenses of any person who has been nominated as a candidate at that election is not lodged within the time and in the manner prescribed by or under the rules made in that behalf, or if any such return is lodged which is found, either by

Commissioners holding an inquiry into the election or by a Magistrate in a judicial proceeding, to be false in any material particular, neither the candidate nor his election agent shall be eligible for election for five years from the date of such election:

Provided that any disqualification mentioned in sub-rule (*3*) or sub-rule (*4*) of this rule may be removed by an order of the Local Government in that behalf." See also rule 22, clause 4 on the same subject.

The word "false" used in rule 5, clause 4, of the Electoral Rules indicates that return of election expenses must be proved to be deliberately incorrect. In other words corrupt motive must be shown. The motive may be to omit legitimate expenses from the return where a maximum scale has been fixed by the Governor-General in Council under rule 20 of the Electoral Rules, or intention may be to conceal expenditure which would go to prove some other corrupt practices. Under rule 21 of the Electoral Rules every election agent is required to keep separate and regular books of account in which the particulars of all expenditures incurred in connection with the candidature should be entered.

In this case, Muhammad Husain appears to have kept regular accounts and there is perfect correspondence between his account book and the return submitted by him.

We shall now deal with specific allegations made by the petitioner, regarding the accounts.

(*i*) As regards Rs. 1,500 withdrawn from Barisal Rin-dan-samiti in two instalments, it has been proved to our satisfaction that the said sum was lent to one Upendra Nath under a mortgage-bond, dated, 4th Jaistha, 1336 B. S. It has not been shown by the petitioner that the said sum of Rs. 1,500 was spent by Muhammad Husain for election purposes.

(*ii*) As regards Rs. 200, it does not appear that the said Rs. 200 was paid by Akimuddin, pleader, to Muhammad Husain to meet his election expenses. On the contrary we have no reason to doubt as testified to by Muhammad Husain that he had taken temporarily a loan of Rs. 200 from Akimuddin at Bhola, being short of fund and that he repaid the loan later on.

(*iii*) It was not shown that any expenditure was incurred on behalf of Muhammad Husain by the men named in clauses (*m*) and (*n*) of the corrupt practices.

18. As regards the payment of Rs. 50 to Sadot Hussain Muktear (P. W. No. 5) for his travelling expenses. This fact is not mentioned in the petition. He said that he was a canvasser for Muhammad Husain but Muhammad Husain denies having engaged him as a canvasser. This witness is a brother-in-law of Golam Kader Chowdhury, a relation of Salem Mia.

We are, therefore, of opinion that the return of accounts submitted by Muhammad Husain under rule 5, clause 4, of the Electoral Rules and Regulations, 1926, is not false in any material particular.

Having now discussed all the evidence in the case, our opinion on the several issues framed in it is, therefore, as follows:—

1. That the respondent No. (1) has been prejudiced to a great extent on account of petitioner's not giving full particulars in the list of corrupt practices filed with the petition.

2. That the polling of Batamara Hat was not shifted. As regards Safipur Mian-bari we have merely expressed a doubt as to whether the school house where the polling took place appertains to the "Mian-bari", where the election was ordered to be held. But we are perfectly satisfied that there has been no material irregularity in holding the election there.

3. That secrecy was observed at the time of polling at Batamara Hat and at Safipur;

4. That no vote was improperly rejected at Udaypur centre;

5. That the respondent No. (1), his agents and men were not guilty of any corrupt practices as alleged in the petition;

6. That the nomination paper of respondent No. (1) was properly accepted by the Returning Officer;

7. That the result of the election has not been materially affected by any irregularity;

8. That the return of election expenses filed by respondent No. (1), appears to be true and bona fide;

9 and 10. That respondent No. (1)'s election cannot be set aside; and

11. That the petition is liable to be dismissed.

19. **To sum up.**—We are of opinion that the election of Muhammad Husain is not void on any of the grounds mentioned in rule 44, of the Electoral Rules, namely—

(*a*) That his election was procured or induced, or the result of the election was materially affected, by a corrupt practice, or that

(*b*) any corrupt practice specified in part I, of schedule 5, was committed, or that

(*c*) the result of the election was materially affected by the improper acceptance or refusal of any nomination, or by the improper reception or refusal of a vote, or by any non-compliance with the provisions of the Act or the rules and regulations made thereunder, or

(*d*) on the ground that the election has not been a free election by reason of the large number of cases in which undue influence or bribery, within the meaning either of part I or part II of schedule V, has been exercised or committed.

Regarding the payment of costs, the general rule is, that costs follow the event, and the party who loses a case should pay the costs of his adversary. The Court has, however, a discretion and there may be special circumstances to displace this ordinary rule. But in proceedings in connection with an election petition, the expression "costs" has been defined to be as follows [vide section 4(*a*) of the Act No. 39 of 1920]:—

"Costs" means all costs, charges and expenses of or incidental to an enquiry.

(*c*) "Enquiry means an inquiry in respect of an election by commissioners appointed for that purpose by the Governor, Governor-General or Lieutenant-Governor."

Section 11.—(1) "Costs shall be in the discretion of the commissioners, and the commissioners shall have full power to determine by and to whom and to what extent such costs are to be paid, and to include in their report all necessary recommendations for the purposes aforesaid."

It follows, therefore, that the term "costs" covers a wide ground and does not restrict itself to the payment of costs merely of the parties. Under the provisions of rule 36 (*2*) of the Bengal Electoral Rules, the Governor has to appoint as commissioners three persons who are or have been, or are eligible to be appointed, Judges of a High Court for the trial of an election petition. From the definition of "costs" as given above, there cannot be any doubt that the costs incurred by Government in setting up a tribunal, may be assessed rightly as costs of the case which are payable. While considering this matter, we have had the advantage of looking into the reports of a large number of cases of election petitions published in Vol. 3 of Jagatnarain (Reports of Indian Election Petitions). It appears that in most of these cases the question of costs in setting up a tribunal has not been discussed at all, and no costs have been allowed to Government. In the Bombay Presidency there are, however, some cases, in which the commissioners have expressed an opinion that the word "costs" in section 4(*a*) of Act 39 of 1920 is wide enough to include the fees of the commissioners (see the report at pages 173 and 174). But they limit the term to the fees payable to non-official commissioners only. In our opinion when the official commissioners have to be detached from their ordinary work to perform the function of commissioners in election proceedings, there seems to be no good reason why their salaries, which are payable by Government, should not also fall within the scope of the term "costs" as defined in the Act read with the definition of "enquiry" in it.

The point arose in two cases in Behar and Orissa. In one case, Dasu Sinha *versus* Rajondhari Sinha, page 80, the commissioners say that the costs of setting up of the tribunal are not recoverable by Government under any circumstances (see page 93). Subsequently, in another case Suraj Kumar *versus* Jagat Narain, page 204, the same commissioners have modified their opinion to some extent and have expressed a doubt as to whether Government is entitled to recover such costs (see page 207).

Whatever, therefore, may be the practice in other provinces, in so far as the Presidency of Bengal is concerned, it has not been pointed out to us that up till now there has been any case of election petition in which the commissioners have made the costs of the tribunal payable by any of the parties. It is doubtful whether it is intended that this should be so. For while in sub-rule 2 of rule 45 of the Electoral Rules, it is provided that the report shall include a recommendation by the commissioners to the total amount of the costs which are payable, and the persons by and to whom such costs should be paid, there is a specific provision that such recommendation may include a recommendation for the payment of costs to the Advocate General. There is, however, no such provision for payment of costs to Government for the appointment of the commissioners. In these circumstances we think it to be proper to discuss this question at some length, so that if it is intended that such costs should be paid in Bengal the Electoral Rules may be so amended as to remove any doubt in the minds of the commissioners on the subject.

At the outset we must say that rule 35 of the Bengal Electoral Rules which provides that at the time of presentation of an election petition the petitioner shall deposit Rs. 1,000 as security for costs is a most salutary one. If it were not so, Government would be flooded with frivolous and vexatious petitions for setting up tribunals which might have the effect of harassing persons who have been rightly elected in the Legislative Councils, and who might be too poor and unequal in strength to fight their opponents. There is no doubt that the election law in India is based principally on the election statutes in England though they may differ in some particulars. In Earl of Halsbury's Laws of England, Vol. 12, page 481, para. 951, it is stated that "the expenses of a commission appointed to inquire into the existence of corrupt practices at any parliamentary election or elections in a county or borough (*i*) are paid, in the first instance, by the Treasury and are repayable by such county or borough, respectively, upon the requisition of the commissioners of the Treasury, which requisition is conclusive evidence of the amount stated therein and of the payment thereof by the Treasury."

It would, therefore, seem that in England the expenses of the election commissioners are not payable by the parties to the election proceedings. The shaping of a new constitution in India has been of recent growth, and people have not been able up till now to be quite familiar with the procedure that has been laid down for election, namely, (*1*) in the Indian Electoral Rules, (*2*) The Regulations, (*3*) Orders of the Governor-General, (*4*) English cases and also (*5*) The case law in India. But the machinery for trying election petitions has become indispensable, and it is now obligatory on the Government to appoint commissioners to try them just as they have to appoint Judges and Magistrates to try civil and criminal cases. The salaries of this latter class of officers are paid from the general revenues of the country, and parties are not required to pay them out of their own pockets. In the matter of election proceedings, Government has to make provisions in the budget of every year for expenses for Provincial and Central Legislatures, and the charge falls under the head General Administration. In these circumstances, we think that in the present state of evolution in the country, it may not be quite proper to saddle the parties in election petitions with the costs of setting up and maintaining tribunals for

the trial of such cases. Sometimes all the three commissioners may be highly paid Government officers, and sometimes the majority of them may be so. The charges in regard to their appointment will be enormous, and if the parties have to pay them, it would be extremely hard upon them. Many an innocent and honest candidate might thus be scared away if he has to run the risk of fighting with an unscrupulous enemy whose resources may be ample. With these observations we think that the adaptation of an English system to Indian use should be introduced gradually and cautiously, and when, as observed above, even in England the costs of the election commissioners are paid by the treasury in the first instance it may not be quite reasonable that the costs to be incurred for them by the Government would be borne by the parties. In the present case, though we are of opinion that strictly speaking the costs of all the commissioners are costs of this case, it is a matter within our discretion as to whether we should direct the petitioner to pay them. We are of opinion that this case is not altogether frivolous, as we have some doubts in our minds, as to whether the election at the Safipur Mian-bari has not been an irregularity, though not a material irregularity, and though it does not at all affect the result of the election (vide our decision in paragraph 2).

Further, as between the petitioner and the respondent No. (1), there has been rather a neck to neck fight. As out of a total of 4,671 votes recorded in the constituency, the respondent No. (1) secured 2,364 votes, while the petitioner got 2,307 votes. There is thus only a difference of 57 votes. In the present case, we therefore do not allow any costs to Government for setting up the tribunal.

But the petitioner must pay the costs of respondent No. (1) and the respondent No. (6), which we assess as follows:—

Costs of respondent No. (1).

	Rs.	A.	P.
Fees for Babu Indu Bhusan Sen, M.A., B.L., Senior pleader, for 16 days, at Rs. 25 per diem	400	0	0
Fees to Junior pleader	80	0	0
Other charges, such as, witnesses' expenses, process fees, etc.	170	0	0
Total ..	650	0	0

Costs of respondent No. (6) (Returning Officer).

	Rs.	A.	P
Fees for the Junior Government pleader, Babu Rajendra Lal Banerjee, M.A., B.L., for 16 days, at Rs. 25 per diem ..	400	0	0
Travelling allowance of a clerk to and from Calcutta to obtain respondent No. (6)'s signature	15	0	0
Travelling allowance of witness Babu Dinesh Ch. Chanda, and the Sub-Inspector Abdul Kuddus, of police-station Muladi	26	0	0
Costs of stamps, processes, postage stamps and paper	11	4	6
Total ..	452	4	6

Upon the grounds as set forth above, we hold that respondent No. (1) Maulvi Muhammad Husain has been duly elected. We, therefore, beg to recommend to His Excellency the Governor that the petition be dismissed, and that the petitioner Maulvi Rahim Bux Salem be ordered to pay Rs. 650 as costs to respondent No. (1) and that he be also directed to pay Rs. 452-4-6, as costs to respondent No. (6), Returning Officer, and further that these costs should bear interest at the rate of 6 per cent. per annum up till the date of realisation.

No. 34, dated Barisal, the 30th January 1930.

From—A. GHOSH, Esq., President of the Commissioners appointed under rule 36 (2) of the Bengal Electoral Rules and Regulations, 1926, at Barisal,

To—The Additional Deputy Secretary to the Government of Bengal, Appointment Department.

I have the honour to state that the Accountant, Bengal Secretariat, in his letter No. 154, dated the 27th January 1930 (*Calcutta Gazette* Advertisement bill No. 2261 of 1929), asked me to remit the sum of Rs. 60-4 as costs for advertisement of the petition in the election case noted below:—

Maulvi Rahim Bux Salem, petitioner,

versus

Maulvi Muhammad Husain and others, respondents.

The bill has been received in this office on the 29th January 1930 after the submission of the report of the election case and so this cost for advertisement was not assessed in our report as the bill was received late.

Under the circumstances, I beg to say that the amount of Rs. 60-4 may be paid out of the first deposit of Rs. 1,000.

The petitioner, through his pleader, has been directed to deposit the sum of Rs. 60-4. The amount, if paid, will be deposited in the local treasury at the credit of the Government.

Petition for leave to make a call.

(Title.)

The humble petition of , Official Liquidator of the abovenamed Company sheweth as follows:—

1. The abovenamed Company was by an order of this Court dated the day of 19 ordered to be wound up by this Court (*or* under the supervision of this Court).

2. By an order of this Court dated the day of 19 I was appointed Official Liquidator.

3. On the day of 19 the list of contributories of the said Company was settled by the Honourable Mr. Justice (*or* Esq., District Judge of).

4. The amount of the debts proved and admitted against the said Company and the estimated amount of the costs charges and expenses of the winding up aggregate the sum of Rs. or thereabouts.

5. Of the assets set forth in the statement of assets I have realised the sum of Rs. of which I still have in hand the sum of Rs. I estimate that the assets still remaining to be collected will realise approximately Rs . There are no other assets belonging to the said Company except the amounts due from contributories.

6. In the settled list of contributories of the said Company appear the names of persons in respect of shares.

7. For the purpose of satisfying the debts and liabilities of the Company and of paying the costs charges and expenses of the winding up I believe the sum of Rs. will be required in addition to the amount I now have in hand and the amount still to be collected by realisation of the outstanding assets.

8. In order to provide the said sum of Rs. it is necessary to make a call upon the several persons who have been settled on the list of contributories and to provide for the contingency of some of such contributories partly or wholly failing to pay the amount of such call I believe that for the purpose of realising the said amount required it is necessary that a call of Rs. per share be made.

Your Petitioner therefore humbly prays as follows:—

(*1*) That leave be given to your Petitioner to make a call of Rs. per share on all the contributories of the said Company (*a*) and to fix the date for the payment of such call.

(a) Or as the case may be.

Clause 1.—The Committee consider it desirable to empower the Local Government to bring the various provisions of the proposed Act into operation by notification on suitable dates so as to give time to persons affected by it to take necessary action before it comes into operation.

Clause 1A.—Alterations (*i*) and (*ii*) in section 3 are consequential upon the decision to include references to sterilized milk in section 407 and alteration (*iii*) relating to a mark follows the wording of the proposed clause (*1a*) in sub-section (*1*) of that section.

Clause 4.—Following the provisions of the Bengal Food Adulteration Act, 1919, the Committee have inserted references to sterilized milk in section 407 of the Calcutta Municipal Act, 1923.

GOVERNMENT OF BENGAL.

Appointment Department.

CALCUTTA, THE 10th MARCH 1930.

RESOLUTION—No. 4145A.

The Governor in Council has heard with deep regret of the death in England of Mr. M. C. McAlpin, C.I.E., I.C.S., on the 4th March 1930. Arriving in Bengal at the end of 1900 he quickly made his mark and was selected for the post of Under-Secretary, Judicial, Political and Appointment Departments in February 1903. In 1908 he was first placed on special duty in connection with a subject on which later he became the expert adviser of Government, viz., the pay of clerks, and in connection with which he became widely known throughout the Province as the President of the Ministerial Officers' Salaries Committee, 1920-21. He was an expert also in all matters connected with land revenue, having been Settlement Officer in Midnapore and later Director of Land Records, and finally Secretary to Government in the Revenue Department. For a time he was Secretary in the Finance Department and finally after spending 2½ years as Commissioner of Chittagong Division and doing excellent work there he acted for six months as temporary Member of the Executive Council before going on leave in November 1929.

His Excellency in Council desires to record his profound regret at the loss of one of the ablest officers who has ever served in Bengal and to convey his sincere condolence to the relatives of Mr. McAlpin.

By order of the Governor in Council,
